William and Mary College,

College Song.
I go to school and open the gate, and I go to school and close the gate. I go to school and let in the light, I go to school and let in the night.

I go to school and open the gate, and I go to school and close the gate. I go to school and let in the light, I go to school and let in the night.

I go to school and open the gate, and I go to school and close the gate. I go to school and let in the light, I go to school and let in the night.

I go to school and open the gate, and I go to school and close the gate. I go to school and let in the light, I go to school and let in the night.
