KING GEORGE, VA., THURSDAY, AUGUST 2, 1888.

THE STORJ.

H. F. P. MAYO.

THE PROGRESS OF THE TIMES.

In a recent number of the "New York Times," Mr. Charles A. Dana, the well-known editor of that paper, said of the "New York Tribune:

"The Tribune is the true spirit of the times. It is the voice of the people, and its pages are full of the thoughts and ideas of the hour. It is the mouthpiece of the progressive elements in the community, and it speaks for the future as well as for the present."

This is a tribute to the "Tribune," which is the most important newspaper in the world. It is the voice of the people, and it speaks for the future as well as for the present. It is the mouthpiece of the progressive elements in the community, and it is the true spirit of the times.

The "Tribune" is the voice of the people, and it speaks for the future as well as for the present. It is the mouthpiece of the progressive elements in the community, and it is the true spirit of the times.

The "Tribune" is the voice of the people, and it speaks for the future as well as for the present. It is the mouthpiece of the progressive elements in the community, and it is the true spirit of the times.

The "Tribune" is the voice of the people, and it speaks for the future as well as for the present. It is the mouthpiece of the progressive elements in the community, and it is the true spirit of the times.
MALARIA

Malaria is an almost in- 

describable malady which not even the most talented 

physician is able to control. 

Its cause is most fre- 

cently ascribed to local 

surroundings, and there 

is very little question, but 

that it usually accompanies every other malady, 

and is usually accompanied by loss of appetite, 

stomach-aches, a watered 

mouth and a headache.

We are indebted to Major General C. H. W. F. W. 

Tucker, of the 1st Illinois, 

for an account of the 

present state of the sick 

and wounded, who are 

very much in need of 

New York.

Their little girl, aged 11, 

is in the midst of the 

affliction, and has been 

ill for the past week, 

and it is feared that she 

will die at any moment. 

The case is very urgent, 

and we are requested to 

make a donation in her 

favor, which will be 

forwarded as soon as possible.

The United States San 

itary Commission has 

sent a large supply of 

medicines, and all possible 

aid will be given to the 

sick and wounded, who 

are in great need of 

the supplies.

FARM AND HOME.

Raising Catties.

A writer in the American Dairyman gave the following account of raising catties. Take the hay away from the mother at a certain time, and she will milk until she is dry. With milk in her the first few weeks, interesting facts will be brought to light. Catties are not like the cows with respect to a certain stage in their production. They can get, with good management, and with great propinquity, should beogen, while goats almost immediately after. If a goat should escape from the doe, give it a little milk, and it will continue the production of milk for several weeks. The cattie is a better animal than the goat, and can handle the same kind of corn, and everything else. If a goat should escape from the doe, give it a little milk, and it will continue the production of milk for several weeks. The cattie is a better animal than the goat, and can handle the same kind of corn, and everything else.
