Sororities Oppose Abolition Of Houses

The PLAT HAT, an effort to obtain some necessary features, concludes with the following report:

Chi Omega

The positions of fraternity and sorority life are most important, not because of the number of these organizations, but because they are the only two institutions in the university that are concerned with the social life of the students. As Chi Omega, we feel that the good fraternity and sorority houses would not change the false impression held by the students that the fraternity and sorority house is an organization whose chief aim is to make a profit. We feel that the fair treatment of the organization would be the first step toward the solution of the problem.

Phi Mu

One of Governor Darden's reasons for the action is that fraternity and sorority houses are not as efficient as dormitories. This is not true. Fraternity and sorority houses are not only efficient, but they have a greater capacity than dormitories. The necessary interest in her sorority inspires her to do her best. We believe that the sorority house is a part of the student body and that it is not only on account of the organization, but through organization and our own initiative, that the sorority and non-sorority members are working together on this campus. The Governor claims that the sorority house is a part of the student body, but the Governor claims that the sorority house is a part of the student body. We believe that the sorority house is a part of the student body and that it is not only on account of the organization, but through organization and our own initiative, that the sorority and non-sorority members are working together on this campus.

Kappa Alpha Theta

The sororities submitted the following statement:

"We believe that the sorority house is a part of the student body and that it is not only on account of the organization, but through organization and our own initiative, that the sorority and non-sorority members are working together on this campus. We believe that the sorority house is a part of the student body and that it is not only on account of the organization, but through organization and our own initiative, that the sorority and non-sorority members are working together on this campus."

Delta Delta Delta

Delta Delta Delta feels that the Governor has neglected the problem of the sorority house. It is not true, as Governor Darden claims, that the sororities are the only organizations which have been neglected. The Governor has neglected the problem of the sorority house in the same manner that he has neglected the problem of the fraternity house. The Governor has neglected the problem of the sorority house in the same manner that he has neglected the problem of the fraternity house.

that there should be a review of our organizations, and they should at least be given a chance to be heard. The sorority girls and the Board of Visitors, being female alike, will be well aware of the necessity and necessity always to be exclusive. It is definitely to be exclusive. It is definitely to be exclusive.

Kappa Kappa Gamma

It is a known characteristic of society that people will form their own groups, whether they like or not. The fact is, that society does not prevent one from joining existing clubs. The groups that are formed may serve many purposes. It is religious, social, and educational. In the case of Kappa Kappa Gamma, it serves as a gathering place for the women of the campus. It should be noted by the men that society is not exclusive. It is definitely to be exclusive. It is definitely to be exclusive.

Gamma Chi Omega

The construction of sorority houses has been called "rushing parties." It is not because the women choose to form their own organizations, but because of the necessity of forming new organizations. The social, religious, and educational purposes are served by the formation of sororities. It should be noted by the men that society is not exclusive. It is definitely to be exclusive. Bust The Axis With Jones

BY KATIE BURFORD

Let the Axis try to cut off this country and we'll put him back where he belongs—under the water! Good-bye, Mr. Axis! Good-bye, Mr. Japan! Well done, T.J.C.'s—Tucker Jones Command—now receiving a rigorous course of training that should fit them for a splendid career in physical education.

Under the direction of Mr. Tucker Jones, this training in physical education is being given to young men, necessary for physical education for junior and senior men, meets three times a week for three hours. The T.J.C. have all students in the class, and though the course covers fairly well, the credit classes are added to the total number of required results in physical education.

Women's Tennis Begins This Week

The women's intercollegiate competition will start this week with tennis matches. The rules will be as follows:

1. A team shall consist of two singles and one double. Each singles and doubles shall be a set. One player may not participate in both singles, but the two singles players may participate in the doubles if they wish.

2. Each naturally and spontaneously shall have one point for each point won. That is, for winning a point, she shall supply its own scorers for the opponent. Points might vary in doubles if they wish.

After the first issue of The FLAT HAT last week, the editor received a complaint concerning one of the pictures published in that issue. The complaint was that the picture which was used as an illustration which was not representative of the whole College. The editor wants to state that this was the complaint of a freshman against the picture "The Revolution in Germany" which was published with the article, "The Revolution in Germany and Poland." The editor feels that this was an instance of poor judgment in the selection of material for the College paper. The editor wants to assure the student body that this was not a deliberate attempt to present an unfavorable picture of the German people. The editor wants to state that it was an honest mistake and that the student body is not to blame for the error. The editor wants to assure the student body that this was not an attempt to present a biased view of the world.
