Ther was a Valient Officer in this country you all do know
The alloughts he had called for him and to him he did go
He was a billet Soldier now and protest
And hope he is in heaven and his soul is at rest

But now we have got another Commander I hope as good as he
He will fight for his country and keep the enemy free
For there never was a man yet born but there was another as good as he
Jefferson he is a bold Commander and will keep the enemy free
He is a gentle officer now and so protest

Now he was to his honor yet his Subjects I have asked
Now we will song to Jefferson either ever he do go
My God Bless his honor and destruction to his foes
His Subjects that do love him I do understand
The call him their father and governor of their land
For without his advice nothing can be done
If the enemy was before us we be not their purse
We call him our father and's governor of our land
We are bold amricans and dyes at his command
And ther is men among in our country our rights for to maintain
And if our foes do med we will send them back again
We are amiral uam and wishes to be so
If they will let our shpping pass when ever the do go
I will not the do take them as I do understand
The plunder all our shipping and impose on all our men

But if we man our shipping and after them we do go
We will retake our property but ther lives we will befor
And if we are forst to follow them hard forter is then fate
We will make them drink the powder and the bal the shall eat
For ther is no true miltons in the world I do no
Can bet the bold americans when against them the do go
For the one amiral procession and are brave and stout
And for the rights of their country the will stand out

Now let us drink a health to our governors when ever the be
This song it was compost by Andrew Ma Gee
Song live brave Jefferson on sea or on shore
For now my Ditty it is ended I shall sing no mor
