Prior to the 15th May 1761 the present County of Albemarle and Nelson (Old Amherst) Farms included in Albemarle, and prior to the 13th day of January 1765, they were included in Gloucester County.

The first Surveyor was Major Wm. Mayo. The last record I have made by him is dated 17th Oct. 1764.

The second Surveyor was Col. Joshua Fry. The first record I have made by him is dated 18th Dec. 1764. He died in May 1767, and was succeeded by Col. Peter Jefferson who died 17th Aug. 1767. Who was the fourth Surveyor?

The number of Estates in Albemarle County in 1767 were Whites 1304 - Blacks 174 - Total 1478.

I suppose about a fourth or at most one third of these were in the bounds of "Old Amherst." In the following list, there are about 700 names. They all entered land in the County, or were in the County at the date given; some may have been in the County prior to the date given; some may not have settled in the County until after the date given, and some never lived in the county. In such instance I have given the earliest date at which I find them in the county. I have the names of about 200 of the early settlers of Old Albemarle (Prior 1761). This list is compiled from papers of my own, from Col. Fry, from kindly lent me by Mrs. J. Cabell, of Liberty Hall and from many other sources. Most of the land of Old Amherst, I believe, was entered before 1754, those who entered their land last in the county after this date generally did so by purchasing titles already made.

The greatest one, I think, was between 1746 and 1752. I will be very much obliged to any one for any addition to the list, or anything additional regarding any one on the list. I have additional data regarding many, and of the many others I know nothing more.

The population in the bounds of
Old Haverin in 1800 was about
2,000. 

In 1775, there was a white male
over 16 years old and a black of
both sexes over 15. 

I do not know the number of
inhabitants in Old Haverin prior
to the division of 1776, but I
suppose about 3,500. Of these,
about 1,500 were white males
over 18 and about 200, black
male and female over 16. 

After the division in 1776, Ambrose
had 1,149 inhabitants. Beacham
burned about the same, and Haverin
The remainder of the division being nearly
equal as to population.

The population of Ambrose in 1790, 55,260.

While 1776 there was a continual in-
crease of population, both from
the first they were coming and going all
the time; but about that year,
and from that year, for many years
afterwards, there was a great
march from this section
to the South, Southwest and
West.
This section was settled by immigrants from the State of North Carolina, on the Savannah River, settled first on the Savannah and later on the Oconee River. The eastern part of South Carolina was occupied by the Cofitacheque Indians, who lived along the coast, on the border of Georgia. The western part of South Carolina was settled by the Cherokee Indians. The section was surveyed and patented in 1788.

The land on which the township is located and the surrounding defects in the title are not clear. The following is a list of the landowners in the township:

- David Brown
- John Smith
- Robert Johnson
- James Lee
- William Davis

The land is located in the northeast section of the township, near the boundary with North Carolina. The section was surveyed and patented in 1788.
