R E P O R T
OF
PRESIDENT LYON G. TYLER
TO
The Superintendent of Public Instruction
FOR THE YEAR ENDING
JUNE 30, 1912

President's Report

College of William and Mary,
Williamsburg, Va., July 1, 1912.

To the Superintendent of Public Instruction:

Dear Sir,—In accordance with the requirements of the law, I beg to make my report for the year 1911-1912. The following is a full statement in regard to the teaching force and attendance at the college during the last session: a president at a salary per year of \$2,760 and house; ten professors at a salary of \$1,800; two adjunct professors at a salary of \$1,200; one registrar and assistant at a salary of \$1,320; one physical director and assistant at a salary of \$1,800; one assistant at a salary of \$885; one student assistant at a salary of \$335; and two student assistants at a salary of \$135 each—in all nineteen. Besides these there were the following officers of administration receiving salary: one librarian at a salary of \$480; one student assistant librarian at a salary of \$135; one treasurer and secretary to the Board of Visitors at a salary of \$900; one secretary to the president at a salary of \$420; one engineer at a salary of \$795; one fireman at a salary of \$25 a month; two janitors at a salary of \$25 a month; one janitor at a salary of \$35 a month; one janitor at a salary of \$15 a month.

There were in attendance 184 students, who may be classified as follows:

Number of college students from Virginia	93
Number of college students from other States.....	14
Number of academy students from Virginia	72
Number of academy students from other States.....	5
	184
Total	184

	College	Academy
I. Students admitted at reduced rates.		
Number holding State scholarships, pledged to teach in the public schools of Virginia.....	55	51
Number of ministerial students (exempted from tuition fees)	4	1
Number of proctors and instructors (exempt from all fees)	3	1
Number of officers' sons (exempt from all fees)..	2	1
II. Number of pay students	42	24
Number of counties in Virginia having students in	47	39

It will be noticed that the total number of students is considerably less than last year. This result has been due to the bad crops and the uplifting of the college standard since the previous year. I believe that this decrease is only temporary and that the roster next year will show a considerable advance in numbers.

COMMENCEMENT EXERCISES OF 1912.

The final exercises of the session opened on Sunday, June 9th, with the Baccalaureate sermon preached by Dr. Walter W. Moore, President of the Union Theological Seminary, in Richmond, Va.

On Monday and Tuesday nights the Literary Societies held their public exercises. On Tuesday morning the Senior Class held a celebration in the chapel, after which they marched to the front campus and planted a live oak as their class tree. Mr. William Kavanaugh Doty, for the class, presented the tree, and in the name of the college, Dean John Leslie Hall made the address of acceptance.

Dr. A. E. Winship, the distinguished educational editor of *The New England Journal of Education*, delivered the educational address on Wednesday morning on the subject of "Dominant Personality."

At the chapel, on Wednesday night, Rev. Plummer F. Jones delivered the address before the Alumni. A business meeting and smoker were held later. A large number of out-of-town alumni were present.

The address to the Graduating Class was delivered by Dr. James Brown Scott, of the Carnegie Peace Foundation, Washington, D. C., on Thursday morning, after the conferring of the degrees and honors.

On Monday, Tuesday, Wednesday, and Thursday nights germanes were given in the gymnasium by the fraternities and the German Club.

Degrees were conferred on Thursday.

Bachelors of Science

HERBERT ROGERS ETHERIDGE
EDWIN LE BARON GOODWIN
JOHN YOUNG MASON
CHARLES CHAPMAN SNOW

Bachelors of Arts

GEORGE PRINCE ARNOLD
WADE THOMAS BROWN
WILLIAM HANSEN DEIERHOI
WILLIAM KAVANAUGH DOTY
ALAN FRED. ENGLISH
THOMAS HENLEY GEDDY
FREDERICK DEANE GOODWIN
JOSEPH FARLAND HALL
ROBERT BRUCE JACKSON
WILLIAM HANEY NEBLETT
JAMES HERMAN SUMMERS
EDWARD ROANE WILCOX

Master of Arts

FREDERICK DEANE GOODWIN

At the same exercises the teachers' diplomas were conferred, and the scholarships and prizes. The following is a list of college scholarships conferred upon the basis of scholastic record through the session:

The Graves Scholarship—ABRAHAM BRODOWSKI.

The Corcoran Scholarship—CHARLES HARMON SCHEPMOES.

The Chancellor Scholarship—HERMAN LEE HARRIS.

The Bennett Scholarship—VICTOR E. G. EMERY.

The Soutter Scholarship—PERCY LEWIS WITCHLEY.

The James Barron Hope Scholarship, for the best poem in the *William and Mary Literary Magazine*, was awarded to Mr. Robert Bruce Jackson, and the prose medal to Mr. William Kavanaugh Doty. The scholarship and medal were presented by the donor, Hon. Robert Morton Hughes.

Special mention was made on Baccalaureate Day of Mr. Wayne Carr Metcalf as having made the best record of any student in the college. As Mr. Metcalf holds a State scholarship, he was not eligible for the other scholarships.

Among the gifts to the college at Commencement was a handsome stone pedestal for the ancient college sun-dial. The pedestal was presented by the staff of *The Flat Hat*, the college weekly. It was erected at the rear of the Wrenn Building.

CHANGES IN THE FACULTY.

Professor Westley Plummer Clark, the newly-elected head of the Department of Greek and Latin, is a native Virginian. Graduating with honors at Richmond College in the class of 1903, he continued his work at his *Alma Mater* for another session, and won with distinction his Master of Arts degree in 1904. The two sessions following he was a member of the faculty of Jacksonville College in Texas, but resigned to accept a university scholarship for graduate study in the classics at Chicago Uni-

versity. The session of 1907-'8 was spent partly at Simmons College, Abilene, Texas, in the classical department and partly in prosecuting graduate studies as a scholar at Chicago University. In 1908, Mr. Clark resigned a fellowship at Princeton University to accept a position in the faculty of Washburn College, Topeka, Kansas, where he worked most successfully for two years, leaving it to return to the University of Chicago as Assistant in Greek. At the time of his election to the professorship of Greek and Latin in the College of William and Mary, he was serving as Assistant Professor of Ancient Languages in Colgate University, Hamilton, New York.

Professor George Oscar Ferguson, A. B. (William and Mary), M. A. (Columbia University), who has served for five years in the Department of Education and Philosophy, was elected in June Professor of Philosophy and Associate Professor of Education. Professor Ferguson has formerly ranked as Adjunct Professor of Education and Philosophy and Principal of the Normal Academy. The Board's action was in recognition of a distinguished scholastic record, both at the College of William and Mary and at Columbia University, and of his eminent success as a teacher at this college.

As successor to Mr. William Haney Neblett, A. B., resigned, the Board of Visitors, at the June meeting, elected Mr. Douglas Meriwether Griggs as Assistant in the Department of Physics.

Mr. Frederick Deane Goodwin, A. B., A. M., was elected teacher of History and Languages in the Normal Academy, to succeed Mr. Roscoe Conkling Young, A. B., B. S., A. M., who had resigned in order to undertake graduate studies at the University of Chicago.

THE PROPOSED SUMMER SESSION.

Among the developments planned for the year 1912-1913 is a summer term of the college to be held for eight weeks at Dublin, in Pulaski county. This will be something new in the State

and doubtless will meet an educational need. It will not be a mere summer institute, but a college term, to which will be admitted males only. The work done will be counted as credits on the college degrees.

IMPROVEMENTS AT THE COLLEGE.

The power plant to heat and light the college, which was contracted for at the previous session for \$30,000, was finished about November of this session. It is operated by two 100 horsepower boilers and is capable of not only supplying the present buildings, but of taking care of a large future development. It has added immensely to the comfort and convenience of the students.

A debt of about \$17,000 was necessarily incurred, for the payment of which the General Assembly at its session beginning in January, 1912, provided the means.

BOARDING DEPARTMENT.

Till this session the boarding department has been conducted by a steward, who was an officer of the college. Believing that this method of conducting things was expensive, the Board adopted the contract system, retaining, of course, the general supervision. The result has been a large saving to the institution. So popular was the administration of the new steward, Mr. W. T. Brown, that the dormitories remained crowded throughout the session. The steward has to turn away students who desire rooms and board. As the college has not of itself sufficient accommodations for the 132 State students that it is required by law to provide for, it is necessary that steps should soon be taken to secure funds for the erection of an additional dormitory, if the institution is to continue developing along the line that is most beneficial to the State.

THE OBSERVATION AND PRACTICE SCHOOL.

For many years the College of William and Mary has maintained an Observation and Practice School of four grades for the training of its students in the Department of Education. Of this school Miss Nannie C. Davis was principal for a long time. From very small beginnings she made the school one of the most progressive and up-to-date schools of the South—a thing of joy and beauty to all beholders. In many other ways Miss Davis made herself felt in the life of Williamsburg. Her example was high and elevating and in her work she was greatly aided by her assistant, Miss Laura Stillwell. The resignation of these ladies led the Board, at its June meeting, to consider more extensive plans of union with the school interests of Williamsburg. These plans submitted by Professor H. E. Bennett are far reaching, and it is hoped will meet with successful consummation.
