VIRGINIA PRESENTS EXCELLENT OPPORTUNITIES

VIRGINIA PROGRESS DURING RECENT YEARS HAS BEEN PHENOMENAL.

The entire state is sharing great prosperity and the public and private agencies are contributing to its rapid advancement. Improved farm methods and the use of new products have contributed to this progress.

VIRGINIA STATE CAPITAL.

VIRGINIA LEADS IN SOUTHERN STATES IN CREAMERY PLANTS.

Manufacturers of Virginia are making large increases.

Recent depression has more than recovered.

This depression is the result of a depression in the United States and Europe. The demand for cream has decreased, but the production of milk has not decreased as much. This has caused a surplus of cream in the market.

In summary, Virginia is a state that has a great potential for growth and development. With its rich resources and strategic location, it is well poised to continue its progress and prosperity in the future.
Southside Virginia Is Growing Very Steadily And Firmly

CHASE CITY SHOWS LARGE DEVELOPMENT IN RECENT YEARS

Charlotte Lead in Farming Interests

One of the best counties in Virginia for general agriculture, good roads and good schools provided in every section—there are also prominent commercial centers.

Chapel Hill is a town of some 6,000 people, several miles north of Charlotte. It is the county seat and center of commerce, with a population of about 7,000.

CHEAPER HOMES ARE NEEDED FOR LABORERS

Currently, the market for farm laborers is very active, and wages are relatively high. However, cheaper homes are needed to accommodate the growing population.

URBANA, VIRGINIA

A NEW LAND OF PROMISE

While fish and oysters provide the chief industry of Urbana at the present time, it has recently developed a wider industrial value and with the prospect of one or two new railroads the people are looking forward to a broad expansion in all lines.

Urbana is in the midst of one of the best general agricultural sections in Eastern Virginia. Its accessibility to the markets of Washington, Baltimore and other large coast towns renders this one of the best truck farming sections of the country. This industry is being developed in a successful way and will be greatly accelerated with the coming of one or two roads that are in prospect for the immediate future.

The roads in prospect are the extension of the Richmond and Rappahannock River and the Norfolk and Washington. Another road proposed comes from West Point.

The principal crops are corn, potatoes, tomatoes and other vegetables and staple food products. Live stock raising is also being developed and promises to be most remunerative. Dairy farming has proven to be very profitable and will grow more as more adequate transportation facilities are provided.

This is a Promising Section With Many Exceptional Opportunities

The hamlet should investigate before he commits himself elsewhere. Urbana is on the Rappahannock River about twenty miles up from the Chesapeake Bay. It is the chief town of Middlesex County. There are good schools and churches.

Every natural advantage for comfortable homesteads and early prosperity is provided. The only thing lacking for a maximum of city and rural development is proper and railway transportation. The latter is in sight. The people will follow.

Good Water, Fine Climate

QUEEN County of Southside Virginia
Chase City, Virginia--A Town of Vigor and Promise.

Chase City is one of the most ideally located towns in Virginia. It has had most encouraging growth during past few years. It has a population of 2500 and is still growing. It is located on the Southern Railroad with good marketing facilities.

Lands in this community that were bought less than five years ago at from $18.00 to $20.00 an acre are now sold for $45 and $50 an acre. This tells an eloquent story of increased values. Good lands can still be bought cheap, but the advance is sure to come.

Altitude above sea level 500 feet. About 80 miles from Richmond. One hundred miles of Hampton Roads. The winters are short and mild. The summers are bright and pleasant. There are good schools and churches.

City owns and operates water and electric lighting plants. City property valued at $100,000. Bonded indebtedness is less than $90,000. One of the best Graded and High Schools in the State.

One of the Largest Tobacco Markets in Virginia.

Burkeville, Virginia
A Community of Thrift and Promise – Good, Cheap Lands. Splendid Climate.

Fine Schools and Churches

The town of Burkeville is a growing prospering community of 800 population. It is located on the main lines of Southern and Norfolk Western railroads. The District Agricultural and High School located at Burkeville is one of the best in the State.
A Growing Town on the Southside

CLARKSVILLE, :: :: VIRGINIA

Located on the Dan, Staunton and Roanoke Rivers

One of the Best Farming Sections in Virginia

Some Advantages Clarksville Has to Offer Intelligent Home-seekers:

You will be interested in this town and section.

It is one of the coming towns of Virginia.

It is substantial, well built and progressive.

It is one of the large and important bright tobacco markets of the State.

The various large warehouses handle from two and one-half to three million pounds of tobacco a year.

Clarksville has splendid graded schools and one of the highest standard High Schools in the State.

There are two good railroads and the national highways giving ample transportation facilities for surplus products to market and to traveling tourists.

This section is finely adapted to dairying and the industry promises to become one of first importance.

The lands are very productive and give wonderful results under intelligent cultivation.

They are marvelously cheap when all conditions are taken into consideration.

The health of the community is one of its strongest features. Some of the finest libia springs in the country are located here.

The desirable home-seeker is invited. He is asked to investigate the advantages of this section before deciding to locate elsewhere.

TOWN OF COURTLAND IS GROWING STEADILY

One of the Best and Most Promising Communities on Southside are Railway Between Danville and Roanoke. (In Great Peanut Section.)

MILITARY HISTORY

Courtland was a part of the military history of the Civil War. The first place in Virginia to secede, it was the first to be captured by the Federal Army. The town was occupied by Federal forces in 1863.

JUDGE JESSE FELIX WEST

REPUBLICAN AMBIGUITY

West was a prominent Republican who served as a judge. He was known for his and ambiguous stance on slavery and the Civil War.

SOUTH HILL IS LIVE AND GROWING YOUNG TOWN

In Fifteen Years It Has Developed Into a Community of 2000 Population. It is Important Bright Tobacco Market. Citizens Are Live and Progressive.

CHARLES B. JAMES

REAL ESTATE PROSPERITY

James was a successful real estate developer in South Hill. Under his leadership, the town experienced a boom in real estate and population.

WILLIAM AND MARY IS STRONG COLLEGE

The College of William and Mary was founded in 1693 as the first governing college for Virginia. It is the oldest public college in the country.

COCA COLA BOTTLING PLANT IS MIGHTY

The Coca-Cola Bottling Plant in Courtland is one of the largest in the region. It employs many local residents.

COURTLAND, VIRGINIA

Located in the Edge of the Greatest Peanut Growing Section of the United States.

FERTILE SOIL ADAPTED TO EVERY CROP THAT GROWS IN THIS CLIMATE.

Courtland has Two Strong Banks and a Number of Progressive Mercantile Houses Whose Annual Volume of Business Reflect the General Prosperity of the People of the Town and Surrounding Country.

Splendid Schools

Courtland is on the main line of the Norfolk and Danville Division of the Southern Railroad.

A Growing Town

The farmers do not depend on any one crop but diversify their operations in such a way that permanent prosperity is assured. This section is on the western border of the great peanut growing territory already developed. The soils and other conditions here are just as well adapted to this crop as those farther east and are being rapidly developed. A great feature of this section is the abundance of artesian water. Wells may be sunk anywhere for flowing streams of water. The town is building an electric lighting plant.
SOUTH HILL, VIRGINIA
ORGANIZED IN 1902
POPULATION 1,200

A NEW, LIVE TOWN WITH A SPLENDID FUTURE

Electric Lights
Pure Water
Good Streets
Cheap Lands

GOOD GRADED SCHOOLS AND SPLENDID CHURCHES

EXCEPTIONAL OPPORTUNITIES FOR DIVERSIFIED INDUSTRIES

South Hill is one of the busiest and most promising cities on the Danville and Norfolk Division of the Southern Railway. It is in the midst of that favored section known as the Southside of Virginia. The soil, climate, health, social and other conditions are most ideal for home life and the pursuit of a competence. It is one of the largest and most profitable tobacco markets in the State. The market handles about five million pounds of bright tobacco each year. The lands are finely adapted to the growing of general crops and no better section can be found in the Southeast for the raising of live stock. Grasses and grains grow in abundance. Lands are wonderfully cheap when their productiveness and other conditions are taken into consideration.

Good roads that are well maintained the year round connect the surrounding country with good markets and shipping depots. Good public schools are maintained in all sections of the country. South Hill has one of the best Graded and Public High Schools in the state. There are splendid churches of the leading denominations. The people are of the highest order and extend a hearty, helpful welcome to all worthy homeseekers. This is one of the best and most promising communities of the State and has many advantages that will appeal to the man who is seeking a new home where the climate is mild, where health conditions are of the best, where lands are cheap and productive of a wide range of profitable crops.

Come to SOUTH HILL, VIRGINIA.

Rapid and permanent growth of South Hill gives abundant assurance of still greater advancement in the future. Investment in a home here would not only be wise but profitable.

Detailed information about this town and section will be given cheerfully by

Mayor and Council.

Would You Give $1 For a Better Tobacco Crop?

One dollar invested in good, soft tobacco seed will increase the value of your crop more than $100 invested in any other way. Tobacco returns readily to cultivation and labor. All of these facts add many dollars to the value of the crop. Each variety of State's Tobacco seed has a pedigree reaching back almost fifty years.

Fifty years ago, this business was founded. Today it is the largest of its kind in the world. Quality seed has been sold throughout the world. It will pay you to put this same quality in your tobacco crop.

Illustrated catalog describing over sixty different varieties of tobacco will be mailed free upon request. This book also describes my selected varieties of "Grown to Grow" Garden and Flower seeds and my "Perfection" Brand Field seeds. Write for your copy today.
