My dear President Tyler:

I am editing one of Dr. J. F. Jameson’s volumes in the original Narrative series, namely, the volume on Pennsylvania, West Jersey and Delaware. The second piece in the volume is Captain Thomas Fong’s account of his voyage up the Delaware in 1634.
May I ask if you agree with L. F. Scott (Journal in America 66) that F.J. 'is supposed to have died' in James City County, Va.? Do you know where and when he did die? Is he the same son or a son mentioned as receiving a land grant in 1657 (ibid. II, 273)? Is there any later sketch of him given by Scott, Reid, and Emerson?

With best wishes, believe me Cordially yours,

Dear Sir:

Your wagon body would hold only 600 lbs., as your horse took
less loads. We kept our horses
likes it. My advice is to know
if I cannot the lower three loads
come for you. It will be necessary
to give your horse 15 or 18 lbs. of
the hay a day. As you can judge
about how much you will want
If the hay is well cured it is the
very best for the market. For those
who will purchase them directly from the
farmers instead of from middlemen,

Dr. Lyon G. Tyler,

College of William and Mary,

Williamsburg, Va.

My dear Dr. Tyler:

I thank you very much for your letter of the 31st and am glad to know that you are going to honor us at next Commencement. I think the subject suggested by you will be a most interesting and valuable one and I know of no one who could handle it better. The old Medical College of Virginia is somewhat of an antiquity, being now in the 74th year. If there is any data about the College that you would like to have I will endeavor to get it for you. Dr. J. R. Gilder-
sleeve of Richmond is probably better acquainted with the history of the College than anyone living. I trust that you are coming up to the annual meeting of the Sons of the Revolution which will take place on the 22nd of February. With best wishes, I am,

Yours most sincerely,

Dr. Low G. Tyler,—

My dear Sir,— On my return from Richmond I find your check for $8.00, for which I am sending receipted Bill. — I'm glad the enclosure meets your approval.

I trust you may find good use for it. Your letter to me did not come to hand, your order. — I forwarded the #66 with all the delay possible, changing it after I had put the smaller yoke on it. I regret the mistake which (I believe) occurred to directions at G.F.A. of the Southern home. I am sorry you did not take the 70-

It would have given you most satisfactory work and fills a great gap in our Southern methods of farming. It is certain to begin to improve our methods of farming, as the correct applications of each invention are really brought. This improvement should be encouraged by every one who is engaged in Agriculture further.

My dear Sir:

It is a pleasure to invite you to be a Guest of
Honor at the National Testimonial which representative
citizens of New York are to tender to COMMANDER ROBERT E.
FEARY, at the Metropolitan Opera House on Tuesday evening,
February eighth, under the auspices of The Civic Forum.

GOVERNOR HUGHES will preside on this occasion and
will introduce COMMANDER FEARY, who will give for the first
time in New York a complete account of his discovery of the
North Pole and will display pictures which have not heretofore
been seen in public.

A special invitation has been sent to COMMANDER
FEARY'S comrades to be present and four of them have found it
possible to accept the invitation, namely, Captain Bartlett,
Dr. Goodsell, Mr. Wardwell and Mr. Hensen.

Will you be so kind as to notify us with the least
possible delay as to whether or not you will be able to be
present next Tuesday evening.

My Dear Sir,

I have heretofore not had a very high opinion of the reliability of the writings of Rev. Marmaduke Meems, especially of his life of Washington, and in fact the story of the Cherry Tree.

But I have read an article in the *Literary *Magazine, by Walter B. Morris, entitled "Historian of the Cherry Tree." Horace, in fear of Meems and his stories, has written in favor of Meems and his narratives. He implies that the stories and anecdotes including the "Cherry Tree," are true. If we have been doing injustice to Meems, I would like to know it. I know if no one whose judgment I know of has more sense than yours. Therefore would sooner hate them than yours. Can you tell me who this Walter B. Morris is? I think he must be a Virginian. Thanking you in advance with high regard, Sincerely yours,

William A. Meems

Dear Sir:

Will you kindly give me your impression concerning county records, whether they are properly guarded against being destroyed by fire, whether they are binding, if they are properly cared for, and mention anything else regarding the place of their proper care and fit.

I have my own opinion in the matter, and wish to know that of other workers in history. You may be assured I shall not use your name in connection with anything you may say, unless I have your permission.

Very sincerely,

Dear Tyler:—

Have had a talk with my associates in reference to the Burlington farm, and they do not care to sell part of the land, but are willing to sell the whole reserving the timber for 15 years. If this meets with your approval, we can make satisfactory terms.

Dear Mr. Tyler: I herewith send you some figures relative to the Oregon country, to which Mr. Webster was sent in your Cabinet when he was about to propose the Hudson Bay Claims in 1842, for 200,000 sq. miles for a slave fishing in the interest of England, perhaps, but which was later defeated in the Treaty of Washington known as the Webster-Ashburton Treaty. Also the land in Maine, "Mr. Webster said was not worth a dollar," at another time said it was "so valuable to the Indians as wild animals and the Indians." The territory was afterward divided into 4 States of Oregon, Washington, Idaho, Montana and Wyoming.

The Heather production, approximately, each, Washington 66,000, Oregon 76,000, Idaho 44,000, Montana 114,000,000. Millions of acres are now 30,000 $114,000,000—Millions of acres are now 30,000 $114,000,000 ready for cultivation. Taking partly of Washington, Idaho, and Montana, known as the "Indian Empire" (with Spokane as its hub) the normal Inland Empire with Spokane as the Hub) the normal

value of the Apple Crop is over $17,000,000 of dollars. The big factor producing more than 75,000,000 bushels are wheat, oats, barley, hay, sugar beets, potatoes, and eggs. Quantity of a century ago, these lands in thought of the East I have heard, but be the statement.

Yours truly,

E. H. Vining

My dear Mr. McIlwraith,

I want to know what the figures of Elizabeth City County were in 1860. I have not the Census for 1860 here. Will you let me have it? I would also like to know the population of Hampton in that year.

I am yours sincerely,

Lyon G. Tyler

Elizabethtown: White - 3,180
  Free Colored - 201
  Slaves - 2,417 = 5,798.

Hampton: White - 993
  Free Colored - 73
  Slave - 789 = 1,848.

This information was gotten by Mrs. Mullan. I have no doubt that it is correct.

My dear sir:

Your well known interest in economic and educational progress leads us to extend to you this personal and earnest invitation to attend the 13th annual Conference for Education in the South, at Little Rock, Arkansas, April 6, 7 and 8, 1910.

We have reason to expect a large attendance from the East and Southeast. We should like to meet a delegate or delegation from every county in the Southwest.

It will be worth a great deal for these Eastern men to become personally acquainted with the leaders of the West. This Little Rock meeting thus has unusual possibilities such as may not come again in many years.

Will you not come yourself and urge every county in your section to send representatives of every industry and profession, whether organized or not, including farmers, merchants, lawyers, physicians and ministers.

Thanking you for your help in this struggle for the school, and hoping to meet you in person at Little Rock,

Yours cordially,

Dear Doctor Tyler,

First ideas may be crude, but who can tell to what they may lead.

When the balloon was first made - Dr. Franklin was asked what was the use of it. He answered by saying, What is the use of a new born child? It may become a man.

YOU ARE CORDIALLY INVITED to attend the conference for education in the South to be held at Little Rock, Arkansas, beginning Wednesday, April 6th, and lasting through the evening of the 8th.

We are going to Little Rock in response to “urgent and cordial” invitations from the Governor of the State, the State Superintendent of Education, the President of the State Normal School, the Little Rock Business Men’s League, the Little Rock Board of Trade, the Retail Merchants Association, Hon. U. M. Rose, the Little Rock School Board, the Principal of the High School, the Arkansas Federation of Women’s Clubs and the State Committee of the N. E. A., who voice a welcome from the citizens of the entire State.

Leading professional men, business men and educators from every section are coming to counsel with us. We hope that you can be present. This meeting has unusual possibilities.

...monial to George Washington in some way, as a place for boys to meet for health and amusement and celebration of some kind to his memory. The teachers could suggest the best use for it. I was told by one who should know: I would like to see the matter discussed by the schools and by the press. Could there be any better time...
for this than the educational meeting to be held soon in Williamsburg? of any one better than yourself to the best the matter. Of course I do not expect you to do this as a matter of course to me; but, if you think it is conducive to the patriotic education of the boys, I mean boys not more than twenty years old, for its position and its historical value I think it the place worth one hundred thousand dollars and if sold for such a sum it would be much easier to preserve it entire; and if so many buy it there would be no burden on any one; and I would not have to feel any obligation. Virginia boys can claim Washington for their own boy, and I wish they could do this; but only if it is thought best for them. You know it is pretty well preserved, and I would wish to put some restraint. I could make easy terms as to stipulated. Hoping you are not trespassing on your time, yours very truly,

My dear Doctor:-

I have your letter of the 28th inst. and in reply would that I can furnish you the information desired, having collected much ma-

terial along that line for use in "An Historical Sketch of Medicine and Surgery in Virginia," which I am preparing for the State Medical Society.

Just at present, however, I am unable to transcribe such data as you 

would want on account of the state of my health. I am suffering very 
much with a chronic degenerative condition of the appendix, and am sure that I shall not improve until that troublesome organ is removed, and this, I hope to get done very soon.

I should like to know exactly what data, and in what form, you would wish in the cases of those worthy of mention.

Hoping that later I may be able to aid you, I remain,
