New Naval Reserve V-1 Program Will Be Submitted For Approval

Glen Pre-Training Curricula At College

Dean Miller, Dean of the Faculty, and by Mr. Chairman of the Curriculum Committee, are preparing a Navy Reserve V-1 program which will be submitted to the Board of Regents for the consideration of the faculty. The purpose is to train science students in the Navy Department and to furnish them with training that is in the interest of national defense.

Approximately 3,000 V-1 men will be selected by the Council on the "Committee for V-1" and will be trained at the Naval Training Station in the State University. The program is to be offered in the fall semester of the 1942-43 academic year and will be open to students who have completed their first year of study.

Secret Seven Announces Temporary Change

During the second semester of each year the Secret Seven's Society announces the winners of the "Secret Seven" for the past year. In this society, which is open to students, the candidates are nominated by the faculty and elect their own candidates. The winners are selected by the students and are announced in the school newspaper.

The following are the winners for the year 1942-43: President, A. L. B. Standish; V-P, Mrs. A. D. Lee; Secretaries, R. W. D. Byrd, E. J. S. Byrd, and C. H. Byrd. The meeting of the Secret Seven, which is held every Thursday at 6:15 p.m., is open to all students.

Invisible Beams To Take Over House

By Jerry Byman

Invisible light beams, one that will last a million years and never die out, will be demonstrated at the Open House of the Physics Department on Friday, March 20. The show will be held in the Physics Department building, and the doors will be open to the public from 9 a.m. to 5 p.m.

The show will feature several demonstrations of invisible light, including a demonstration of "The Invisible Man," which will be shown at 10 a.m. and 2 p.m. The demonstration will be made using a device that was invented by Dr. Albert Einstein. The device uses a laser beam to create an invisible screen.

The show will also feature a demonstration of "The Invisible Light," which will be shown at 1 p.m. The demonstration will be made using a device that was invented by Dr. Albert Einstein. The device uses a laser beam to create an invisible light beam.

In addition, there will be a demonstration of "The Invisible Heat," which will be shown at 3 p.m. The demonstration will be made using a device that was invented by Dr. Albert Einstein. The device uses a laser beam to create an invisible heat source.

The WAR CHANT

BY KEED BURGERS

Last week after the Southern Conference meeting, the Dixie League coaches or their representatives from the various teams of the Dixie League, approved a recommendation of the faculty group, asking that Framson be allowed to participate in the season. It was aimed at the duration. This is not an official sanction of Freshman eligibility, but it is the decision of the faculty group. It does, however, indicate that in all probability, first year men will be in varsity uniforms next season.

It might prove interesting to take a quick look at four of the Dixie League teams who are members of the C, D, or E. teams and see just how they will be affected.

It is only that the state could have faced much better. It is the old story, those teams treading, of course, M. I. and V. P. C. and see just how they will be affected.

This week's schedule is as follows and will be run off in this order:

110-yard medley—plunge, breast, back, butterfly
40-yard freestyle
200-yard freestyle—plunge, breast, back, butterfly
40-yard breast stroke
40-yard free style

This week's schedule is as follows and will be run off in this order:

110-yard medley—plunge, breast, back, butterfly
40-yard freestyle
200-yard freestyle—plunge, breast, back, butterfly
40-yard breast stroke
40-yard free style

The schedule is as follows:

The game was a tie and thus the second team in the league was the Freshman or V. M. I. and V. P. C. and see just how they will be affected.

The Freshmen not made eligible.

Fencers Win Sixth Straight; Beat Keydets, 13-4

William and Mary's undefeated fencers, who have been the best team in the country this year, easily defeated the Virginia Military Institute when the squads met on the 12th of April, in front of a capacity crowd at the Coliseum on the campus of Virginia Military Institute.

LETTERS TO THE EDITOR

The Virginian Gazette, Wednesday, March 18, 1942

1. Mgr. William and Mary students, faculty. Entered as second-class matter at Williamsburg, Virginia.

33 For Dies

"Why should there be so much hatred on that border between the Virginia and Maryland?

Whom does we winnow wheat on this side?"

—William Shakespeare

Martin Dies has been the penultimate representative of the American people for the South Carolina district representing the fewest number of American people. In particular, his writings reflect the sentiments of the people he represents. He is a member of Congress, and has written letters to the editor on various topics, including politics and social issues.

In this letter, Dies expresses his concern about the neglect of a certain individual who has been consistently ignored by the political establishment. He argues that this individual is not only valuable but also essential to the fabric of American society. Dies believes that the government should do more to recognize the contributions of this person, who has been unfairly overlooked.

Dies also addresses the issue of political corruption, and argues that the government needs to take a more active role in ensuring that the people's voices are heard. He believes that the government should be more transparent, and that the public should be more involved in the decision-making process.

Overall, Dies's letter is a call to action for the government to recognize and support the people who are often overlooked by the political establishment. He believes that this is essential to the health and well-being of American society.
Sophomore’s “Bowery Ball” Pre-Vacation Fling, Mar. 28

Gay Nineties N.Y. Theme of Dance

Boyle Hopkins to Nicky that "I'll be there to get you on your goose, honey. You better be ready by half past eight. I've got to dress up after they put those gay Nineties glasses, Mar. 28 at the Sophomore Bowery Ball!"

The last Saturday before flying vaca­tion is the night the sophomore have made; no more for their big. Under the guiding light of Dean Hugo, dance committee and others. How the students will be transfigured again, is matter of New York's famous bosoms. Dulates and renewed after some bills and reinvigorating rough edges off to cinematic dress, and dancing up and down does will be William and Mary goldnativity, imperiling things with the handkerchief waltz, stepped sofas, and, jam, and the Sophomore Bowery Ball, youth jewelry, and not so much color suits.
