LETTER

To the Editor of The Liberal:

Sir,—I am one of the owners of a grocery and provision store in the town of Gloucester.

One of the advantages of the Union Army in the present war is the ability of the Government to procure supplies in sufficient quantities and at a fair price.

I have recently bought a large quantity of provisions for my store, and I am certain that, with the Union Army in the field, I can obtain them at a lower price than I could have obtained them otherwise.

I am, therefore, in the position of being able to offer a better price to my customers than I could have done otherwise.

Yours truly,

[Signature]

DEAR SIR,

I am in receipt of your letter of the 5th instant, in which you refer to the subject of the supply of provisions in the present war.

I have been in close communication with the Government, and I am satisfied that they are doing everything possible to meet the demand for provisions.

I am, therefore, confident that I can obtain the provisions that I require at a fair price, and I shall be happy to furnish you with any information that you may desire.

Yours truly,

**Railroad Contracts.**

Glocester, Va. 19th Sep.,—The Commissioners of the State of Virginia have this week awarded contracts for the construction of a railroad between this point and the Southern boundary of the State as follows:

**WOODS.COM**

**Pleasant View**

In the fall of last year, I went to the woods of the State of Virginia, and thence to the Southern border of the State by the way of the Eastern shore. The woods were filled with bears, and the bay with salmon. The people were very friendly, and the climate very healthy. The view of the woods was very pleasing, and the scenery very fine. The wood is at this time much improved, and the people are more civilized than they were in the fall of last year. The woods are now much more healthy than they were in the fall of last year.
