Learned what they may expect from "unbiased, responsible" people, those who will, to show that the whole German people was not advocating a vengeful peace.

Student Faculty Comment

I wish to make some comments on the recent attack on the President by the Foreigner Student League. In the first place, I want to make it clear that I am not a pacifist, or against war. I want to see the United States make every possible effort to win a total victory at the earliest possible date, and I am willing to make any sacrifice to bring about that victory. I have no reason to think that the outlook will be different if we win our war, even if we do believe that the conflict is, and must be, a total war. I am not sure that we will be able to achieve this, but I am sure that we must try. It is difficult to see how the German submarine threat to the United States can be eliminated without a new and different kind of war. Many students and all of the faculty members, will have their own ways to express their views, and I am sure that they will do so. (Signed) Harold L. Eyler, Professor of History, The University of Alabama.

Large Registration

Exhibits for Summer Semester

"Exactly how many persons will be-
attend the college next summer is not yet known, but a definite increase over the registration figure given last year is expected. It is uncertain how many of these persons will be registered to take courses in the summer session, not because of the economic depression, but because the war has forced many people to put off their studies.

V. M. I. Takes State Track Championship; Indians Finish Fifth

A small band of Indians from William and Mary's Indians methodically covered the 10 miles to win the Virginia State championship for the second year in a row. Captain Edgar Pointer, 120 High Hurdles—Todd, Virginia; Shot Put—Griffin, Richmond; 440-yard Run—Wyatt, V. P. I.; Girls Relay Team—Thomas, W. & M.; 110-meter Run—Easterly, V. M. I.; Tie for fourth, Tie with denial of the Spider's home run, and McManus scored three runs, and with the score 0-2, the game was over. The Spiders had twenty runs, with seven errors, and three base hits. The Indians had three runs, with one error, and ten base hits. The Spider's win was due to the excellent pitching of the Spider's pitcher, and the Indians loss was due to the poor defense. The蜘蛛的胜利归功于他们的出色投球，而印第安人的失败则归因于糟糕的防守。

Inexperienced Golf Team Loses to Shipbuilders

William and Mary's inexperienced and unorganized golf team lost yesterday at the hands of the Shipbuilders, 9-1, and is now left with the worst record in the history of the university. The team lost despite the efforts of the Captain, Bill McWhirter, who led his team to a 7-0 victory over the Shipbuilders. The team is composed of Bill McWhirter, Captain Edgar Pointer, and Matthew Foster, who have all had experience in golf before. The team will continue to practice and improve, and is confident of future success.

Netherlands’ Ambassador Assesses “Know Your Enemy”

By Jack Sieskow

“When one fights a war, one must know its history,” asserted Ambassador Lcomedt, who addressed the 55th session of Marshall-Wythe Rotary Dinner, May 5. Mr. Lcomedt noted that “history” could also be interpreted as “your enemy,” and by that implication stressed the background of our enemies, especially Germany and Japan.

There was no point he would stress to those present. The Dutchman was aware of the history and past policies of Germany and Japan and their history. He pointed out that they were assembled for an Aviation Cadets training course and that the Dutchman's remarks would be aimed at those in the field of education.

Following the introduction, there was an immediate discussion on the new Army Air Forces Enlisted Reserve Plan. The discussion was conducted in a formal manner, and the audience was quite attentive.

An official of the Army Air Forces was present, and he explained the details of the new plan. He emphasized the importance of every college man who could enlist in the Army Air Forces.

He noted that due to the tremendous expansion of the service, the Army Air Forces had to take into account the many young men who were not yet ready to join the service. Therefore, the new plan was designed to accommodate those college men who were not yet ready to enlist.

He explained that the plan would allow college men to enlist in the Army Air Forces, and then after a period of deferred service, they would be called to active duty. This would allow them to complete their studies and then join the service.

The plan would be administered through state and local recruiting stations. College men who wished to enlist could go to their local recruiting stations and apply for the new plan.

He further explained that the plan would only apply to those college men who were not yet ready to join the service. Those who were ready to join could enlist in the regular Army Air Forces.

He concluded by giving his opinion on the new plan. He believed it was a positive step towards ensuring that college men could be usefully employed in the service. He also believed that it would help in recruiting young men into the service.

He thanked the audience for their attention and the discussion was concluded.

The meeting was adjourned, and the audience went their separate ways, each with a better understanding of the Army Air Forces Enlisted Reserve Plan.
