My dear Sir,

Having the solicitude of the family to receive tidings of our prospects on our journey, I design merely to say that we were detained on the road for more than two hours last night by the failure of the engine to perform its duty. After having brought us at a rapid rate to within seven miles of the depot on the Delaware and entered the mountains that we should reach this city by 9 o'clock, it sprung a leak, and a messenger had to be sent on foot for the whole space of seven miles for a new iron horse. So that we did not reach until nearly 11. I had the pleasure of seeing Roberts, who was in waiting for us, and who goes to morrow to Morristown to await us some low case of consequence. All are well this morning, and we shall proceed on our journey this afternoon at 4 o'clock.
hope is that we shall sleep quiet
ly under our own roof to
morrow night.
Margaret desires that you mon-
ter will send two boxes of cake
addressed to Mr. Robert Tyler to
the care of Mrs. Virginia Cooper
at Mr. Allen Campbell's New York.
The place of residence not known
but the director will inform
her. With best wishes to all

W. Yule
