February 11, 1741

Dear Friend,

I received your letter dated at my request, and the present is the only person I have been able to speak to in these circumstances. It is true that a matter of importance has been conveyed in the mails, and the mails manage to conduct mail regularly during this terrible weather. The rain is incessant, and at intervals there is a bright sunshine. The letter continues and is thus far:

"...the cost of the road is this..."

I am enclosing a map of the country and the roads in this area. It is quite useful for future reference. I hope that you will find it helpful.

Yours sincerely,
