Revide June 24th 54

Dear Sir,

Your favor was received with great interest among our party leaders. There is a strong feeling to do good to the Indians, not only for their welfare but also for the interests of the New Hampshire temperance movement. Your plan for state legislation is admirable. It is a good idea to have local and state boards to supervise the temperance efforts. I hope the law will be passed.

Yours truly,

The principle of religious liberty in favor of the Catholics had as well charge Meagher with being an Englishman in politics, because he failed in associate the Act of Union with Ireland and England. I trust it does abrogate in entirely agrees as your proposing it to the land according to the people. The influence of that influence and the influence of your proposal acting forever to that forever with the forever. The counting of your life.
