FIFTEEN YEARS OF PROGRESS SHOW PHYSICAL DEVELOPMENT AT W&M

Dr. J. A. C. Chandler came to William and Mary as president in 1919. Under his leadership, a great deal of progress has been made. One of the most important developments has been the construction of new buildings. The Williamsburg Science Building, completed in 1927, is a memorial to the College. It is a Spartan and was erected with funds donated by the late Dr. George H. Humphreys, '94, who was a former president of the College.

The building is a three-story structure, containing 18,000 square feet of floor space. It is equipped with laboratories and classrooms for the departments of chemistry, physics, and mathematics. The building is considered to be one of the finest science buildings in the country.

The building is also equipped with a large library, containing approximately 13,500 square feet of floor space. The library is equipped with the latest in book storage and retrieval systems.

The building is located on Boundary Street, next to the Wren Building. It is named in honor of Dr. George H. Humphreys, '94, who was a former president of the College.

The building contains 18 rooms on the third floor, 12 on the second, and 10 on the first. The third floor contains the library facilities due to the tremendous increase in enrollment in the College.

The building is also equipped with a large seminar room, a large lecture hall, and a large auditorium.

The building is considered to be one of the finest science buildings in the country.
HONOR TO WHOM HONOR IS DUE

There have been three distinct periods in the fortunes of William and Mary since the College opened its doors in the fall of 1865 after the disastrous War between the States and a few of her kindred had laid down their books in '61 for the market. Then came back from Appomattox to complete their education.

The second period of this sixty-nine years of struggle started with the administration of Dr. L. G. Tyler in 1875. He served for twenty years. During that time about 2,600 young men entered the College. This group has contributed greatly to the Carnegie Public Library of Williamsburg and to the University of Virginia to which some of them later went to the University of Virginia to complete their education. They could not die. A great thrill electrified the hearts of her two thousands and sons when they learned that one of her own sons, brilliant and outstanding in the history of higher education in America and its Alumni, was born.

ATHLETICS AT W. & M. KEEP UP DURING ENROLLMENT DURING PAST 15 YEARS

Continued from page 1

enroll was created and put in charge of athletics. "Billy" Gooch became Director of Athletics in 1928 and has handled our athletic affairs very successfully.

Since 1919 William and Mary teams have won 153 games, lost 108. Williams and Mary played 153 football games, winning 92, losing 57 and tying 1. Against other traditional rivals, the University of Richmond, William and Mary is 9-0, lost 7 and tied 3. Indeed, in football William and Mary is 34-11-6 since 1919.

Baseball Schedule

May 18—Georgetown—Here.
May 22—Maryland—Here.
May 26—Virginia—Here.

Baseball Scores

In baseball William and Mary has a tradition of excellence. Some outstanding games in football.

One of your classmates with whom you have played in football, William and Mary and 42 years again will be honored here on June 9th, Alumni Day. It will be the 25th anniversary of his achievements at William and Mary during the 1919 season. It is most appropriate that the class of '29 which produced a man of Dr. Chandler's caliber, take the initiative here on June 9th and join with the University of Richmond in honoring him on the occasion of his 50th anniversary as president.

Drop your cares and worries for this one day and come back to William and Mary.

To be here on June 9th will make you exactly 62 years younger.

Music is to be an essential of personal life. The influence of William and Mary is being exerted in the field of music.

The various teams played in football and baseball, including teams from M. I., University of Richmond, Randolph-Macon, Hampden-Sydney, University of Georgia, University of North Carolina, Duke University, University of Pennsylvania, Franklin and Marshall College, Catholic University, Penn State, Boston College, Yale, Princeton, Syracuse, George Washington, Lenoir-Rhyne, Harvard, Davidson, Swarthmore, Yale, Harvard, Columbia, Chattanooga, Mississippi, Alabama, Lewisburg, Occidental, Maryland, Navy, Randolph-Macon, Hampden-Sydney, William and Mary.

Music is to be an essential of personal life. The influence of William and Mary is being exerted in the field of music.

THERE ARE A BASKETBALL NOT TO BE MISSED

The William and Mary Music Festival is being planned in the process of development into a function which is to be of permanent benefit to the educational life of Virginia. The real purpose of the Music Festival is as follows: to foster the growth of musical development in Virginia.

For the present the field covered is no more than the eastern part of the state but the aim is to extend this to the whole of Virginia. Even this limited field offers great opportunities for improvement. The encouragement of the musical activities of children is being drawn out and tested with the result that, at the expense of a plentiful final result which might be secured from greater selection, little talent is being brought out which otherwise might never be known.

While William and Mary, within its own student body, trains musicians who are to become influential professionally; in its relation to the community it is quite another matter.

A quarter of a century! How seemingly just passed, realize how much.

A quarter of a century! How seemingly just passed, realize how much.
The School of Economics and Business Administration is on the accredited list of the New York Board. Admission to the University is in accordance with the regulations of the Board of Regents of the University of the State of New York. A student who has taken work in these Extensions and Divisions, and who wishes to transfer his credits, must secure the approval of the Dean of the School of Economics. There has been a tremendous growth in the faculty in 15 years both in number and in the quality of its members. The increase in number is in recognition of their preparation for teaching. There has been an increase of 25 and 50 faculty assistants here in 1919 and today the faculty numbers 86 plus 12 for the graduate schools. Of the 68 regular members of the faculty, 31 have been taken in residence; 22 hold Master's degrees; all 17 hold Bachelor's degrees in the professions only.

The faculty has long since outgrown the original building and now has a new home in the Wren Building.
