The swimming pool in Bovee Gym will open every Tuesday, Thursday, and Saturday afternoon from four o'clock until six for recreational swimming for the men students.

Dedred Armor requests all club pretzels whose group pictures haven't been taken for the College Kako to get in touch with her and arrange, within this week, a time for the pictures.

Talk Is Given On Guatemala

Dr. Tozier Lectures At Biology Meeting

Dr. Charles H. Tozier of Boston, Massachusetts, a specialist in color photography, will speak tonight, February 23, at 8 o'clock in the Science Auditorium. His presentation is sponsored by the Clayes-Brown Biological Club.

His lecture is illustrated with colored slides and movies on the subject, "Guatemala, the Heart of the Mountains." The material for this lecture was taken with the help of a great many friends, and the writer has the assistance of the Pan-American Union and the government of Guatemala.

Dr. Tozier discussed the life with the people of the country of the isthmus, their religion, ceremonies, their ceremonies, and tribal costumes.

Dr. Tozier has a wide reputation as a student of early American culture and some features of the American Indians. He spoke of the many places where he showed some of his excellent ethno-historical films.

Dr. D. W. Davis, head of the department of Biology, expects that the movies will be very interesting and the lecture invites anyone interested in attend.

President Pomfret Adopts For Faculty New Divisional Form Of Organization

For purposes of more searching discussion and inquiry in matters relating to the curriculum, degree requirements, and in the teaching of research, the faculty of the College has adopted a divisional form of organization.

The following divisions have been established:

1. Division of Fine Arts, embracing the departments of English, French, Spanish, Latin, German, Italian, Modern Languages, Philosophy, History, and Fine Arts.
2. Division of Social Sciences, embracing the departments of Business Administration, Economics, Commerce, Biology, History, Sociology, Political Science, and Psychology.
3. Division of Natural Sciences, embracing the departments of Biology, Chemistry, Mathematics, Psychology, and Physics.

Each of the new divisions has elected a chairman and a secretary. Dr. Jess Jackson is chairman of the Division of Humanities and Dr. A. W. Davis is chairman of the Division of Social Sciences; Dr. Charles C. Marsh is secretary. Dr. D. W. Davis is chairman of the Division of Natural Sciences, and Dr. Robert Robb is secretary. Dean J. K. Hale, just preceding his annual meeting, was elected chairman of the Teacher Training Division, and Miss May Graham was re-elected as secretary of the same division. The new divisional organization has exhibited important results. The Institute of Education, like the others, has in the past two months worked out a comprehensive program of study with the faculty at its monthly meeting, so the rash as the case requires. This plan of divisional organization is in effect in about one hundred colleges and universities in the United States, and, according to general opinion, has contributed much to the vitality of the faculties of these institutions. It should prove equally rewarding at the College; because so much business of a general character has to be transacted at the faculty meetings, and in the consideration of matters that are of importance to a single department and of greatest public importance. "You see the educational planning process at its best in divisional meetings," says Professor Tozier.

\[\text{Men Elect Dorm Gov't Committee}\]

Presidents Chosen By Highest Vote

Elections were held Monday, February 21, to elect members of the Men's Dormitory Committees.

The committee members are made up of men living in the dormitories who represent the various dormitory groups. They are elected by each group and are dependent on the number of men living in that dormitory.

The new state director of the student government, David Saunders, was elected president and Tom Eisenbreuer, secretary, with Mark Waldo and Joe Blevins were elected to the committee.

In "A" section of Taliaferro, the representatives are Charlie Lewis and Tom Smith. Bob Longman, Pan Grover, and Eugene Wood were elected to the committee.

The Restoration is represented on the Council by Billy Myers, president; Tylor Anderson, secretary, with Jack Price, Robert Goodwin, and the officers.

R. Long To Speak On State Planning

"Post War Planning at the State level will be the topic of the address by Dr. Raymond V. Long, the Marshall-Wythe Seminar’s second guest speaker. Dr. Long, who is the Director of the Virginia State Planning Board, will speak at the February 26th meeting of the Seminar to be held at 4:30 P.M. in Rogers 232. The entire report will be presented in accordance with the general theme "Post War Planning."

References have been assigned by Dr. March for these participants in the discussion which will follow the address:

W. A. Baughn, "Deindustrialization in Virginia, The University of Virginia News Letter, February 1, 1943.

Virginia. A Policy in the Hampton Roads Area.

There will be a three-week interval following Dr. Long’s address and the next session of the Seminar will be held on Thursday, March 16th: "The Future College and Its Population," to be read by Mr. V. Dulaney, Editor of the Richmond Times-Dispatch. On April 15th, Mr. F. J. Sayre, Director of Public Affairs Divisional Organization of the U.S. Office of Education, will be the guest speaker for the fourth section of the Seminar.

March 15 Deadline For Royalist Entries

Marxen Goddill, editor of the Virginia Weekly, announces that extra copies of the recent issue of William and Mary’s literary magazine have been placed in the hands of the President and the administration. All A. S. T. U. men are invited to read them.

Fiction, non-fiction, poetry, and illustrations are wanted by the March 15 deadline. Entries should be on blank, double-sided sheets, and submitted to Room 15 in the Social Science Building.

Divisional Organization of the U.S. Office of Education has begun its work with the colleges and universities of this country. The Division of Transition Training through its separate departments, will work with these institutions to plan, implement, and coordinate the national reconstruction program. The Division’s work is one of broad scope, covering all fields of reconstruction, and it is expected that many of the colleges and universities will find that their work is better done in cooperation with the Division.

Dr. Van Kirk was to speak in Richmond, after which the Van Kirk tour will include various other cities.

H. L. Towle Discusses Color And Advertising
Pittsburgh Plate Glass Advertising Director Visits Campus Mon., Tues.

Mr. H. Ledyard Towle, Director of Advertising for Pittsburgh Plate Glass, spent Monday and Tuesday, February 21 and 22, as guest speaker of the College, discussing "Color in Advertising Today" with a group of Fine Arts students, Monday afternoon, and "Color in Hospitals" in the Dorm Room of Phi Beta Kappa, Tuesday evening.

"What is our way of life? Nothing but color! Our thinking, our working, our eating, our enterprise evolves the product, advertising tells us, and we use it," Mr. Towle began his talk by stating.

In order to rid machines of the clutter effect, industry has made use of color in the following way: the body of the machine is painted a neutral color, gray-green; the slowly moving parts are painted a warm color as a "eye-catchers"; and the actual focal points are painted a light color so that the part being worked upon will show up to a greater advantage.

In discussing "Color in Hospitals" Mr. Towle pointed out that color has an effect in curing the ill. It is next to music in its effect on children, somatic conditions and the like. Mr. Towle stated in closing.

First Article on Camouflage

Mr. Towle, in April, 1917, published the first article on camouflage in the New York Sun. He was the first, for some time the only, color expert in the war. After visiting 100 hospitals in 70 cities last year, he helped to write the first book on Color Therapy. Throughout his life, Mr. Towle has been working to apply the fine arts as every day living.

Pomfret Speaker At Hollins College

By CONNIE CONWAY

Mr. Pomfret delivered the Founders' Day address at Hollins College, Roanoke, Virginia, on February 22. Mr. Pomfret is chairman of the Greater Values of a Liberal Educa-
tion for the Individudal," Mail, February 21. Later in the day he presented a special forum dealing with the subject of"Color Therapy. In the evening he addressed the William and Mary Alumni Society of Boston and the Patrick Henry Hotel.

STUDENT ASSEMBLY MINUTES

The Student Assembly of the College of William and Mary held a special meeting Thursday, February 24, seven o'clock in the Wren Building.

Mary Wilson Carver, acting President of the Student Body, called the meeting to order.

The purpose of this special meeting was to elect a new chairman of the Publications Committee. Priscilla Cargill was elected chairman of this committee.

The meeting was adjourned at 7:20.

ReligiousEmphasis Discussions Ended

(Continued From Page 1)

that his generation can produce the peace, said Dr. Van Kirk, and each one of us must realize that it cannot be done only by a little can be contributed by each generation. But, he realized, all of them have done in this belief far better than to sink in discouragement.

BY ED KORNIHL

Joe Och, W. & M. Gridiron Star, Is Mainstay Of Basketball Quint

One of William and Mary's best all-around basketball players of this season is Joe Och, a 6'4-foot boy from Virginia who is a junior at King's High School. He is expected to be enrolled at Catholic High School in the fall, having received all the per cent college guidance and good report cards.

Och's hoop-play is in direct contrast to his piggy-play. His ability could easily be recognized as being impossible passes in the end zone. However, Och's abilities as a basketball player are not as discernible as he was in his college guidance and good report cards.

ON THE LOOKOUT

WILLIAM D. GEISER

A RECORD TO BE PROUD OF

There is a memorable one in William and Mary annals because it marked what William and Mary did should be an American Renaissance. Tribe fans, prior to 1939, had had some mighty fine teams, and in 1939 football team could only win from Little Guilford College in North Carolina. The basketball team had not won a game in two years and the baseball situation was almost as bad, but the last great Indian football team had been the 1932 squad which whipped the Mary 7-0 and since then William and Mary almost be able to finish the sea- son with an average of over 200. So it is little wonder that the Indian fans really react better for looks of Mr. Chap. Mr. Chap and his staff were surprised by the news.

Just how well Mr. Voyles lived up to his pigskin play. In the fall, he played while participating in combat as a high-level bombardier and dead reckoning navigation. [325x955]A.S.T.P. Plans in any doubt as to the year 1939 is a memorable one and Mary with 7 of the 29 points when the in its history to the Southeastern basketball classic, has wound two out of five games at Raleigh, and has produced the greatest of all victories this year by coming from behind to edge George Washington in the last seconds of the 42-40.
I'd would that the co-ed's will soon steal the spotlight away from the male element when it comes to college basketball games. A full schedule of varsity and junior-varsity matches and games have had to be replaced. The Intramural Program seems to have replaced not our less well. There is, however, one thing that is rather lacking, and that is the women's basketball in the bleachers always makes the competition seem less keen and adds nothing to any game. All spectators, remember that you will be welcome addition to all intramural games.

College Students Serve Red Cross Here, Overseas

It was 6:30 A.M. Out of his tent, shrouded in an olive green工作 uniform, was Major William J. Armstrong, Red Cross liaison officer. The American Red Cross field director, to get one's first move, has traveled since the sighting of the troops in Italy; a letter from "Who's Who?"

Back in New York some of the former students of Dr. E. O. Beach Pennington, City College professors, were probably getting a little midnight cramming, fully aware that if they never go to war, the war has already come to them. All things else being on campus can, and must end. They are now serving the week of the American Red Cross workers, who have college students as a three-fold team: their fellow students are both serving and being served by the Red Cross.

A wide variety of schools and colleges, and many parts of the country, are represented in the ranks of American Red Cross workers. The staff of the American Red Cross clubs in New York has included, for instance, former students at William and Mary, Colorado State, Lake Forest and Morehead State colleges. Some of these Red Cross workers have left their academic interests behind. Others have found the professional line for which their college work prepared them. In the latter group are social workers, playground and athletic directors, while freshmen, sophomore and junior students, research assistants and others are serving coffee and doughnuts from the back of a clubmobile, selling tickets, for the用途 of, or doing other jobs new to them.

College students are serving, the American Red Cross, on the home front, too. Many colleges throughout the country have their own campus Red Cross units. And everywhere they are participating in essential Red Cross activities—on and off campus. The Red Cross flag flies regularly outside campus buildings in many instances, where it Loaning and serving and making handbooks for the Red Cross. Club and fraternity groups sign up in a body for visits to Red Cross blood donor centers. And everywhere college girls are serving in the Red Cross War Fund.

The basketball season is off to a fast start in Read Hall. The team is doing well. The men's basketball gameday has been won. The game against the American Red Cross club will be played on Thursday, February 24.

College students serve Red Cross here, Overseas.
**Morton Is Guest Speaker At Student-Faculty Meet**

In keeping with the Women's Student Government Association's policy of promoting closer relationships between the faculty and students; another student-faculty get-together was held in Barrett living room last Friday evening.

The occasion was met by Dr. Richard L. Morton, head of the department of History; thirty students and faculty members sat on the floor, footstools, and in comfortable armchairs to hear a talk by Dr. Morton's more interesting and humorous stories of early Williamsburg and the College. Mrs. Morton, Dr. and Mrs. Ryan, Miss Wilkin, Miss Low, Miss Murray, Dr. Carpenter, and other older students, were joined by Marge Jeann and Loe Sey who had charge of the gathering.

Dr. Morton read some of Thomas Jefferson's letters pertaining to the College, and told of the number of the Constitution's life, while a young scholar. He brought to light how music was applauded her ability.

The program included selections from Bach and Debussy. In the high-organized "Refrains from Europe" by Parnos, Miss Adams emphasized the delicate interpretation of the composer by a fine, light touch, while examining with chords of dynamic power.

The program included songs from Bach and Debussy. In the highly-organized "Refrains from Europe" by Parnos, Miss Adams emphasized the delicate interpretation of the composer by a fine, light touch, while examining with chords of dynamic power.

The result is a complete imprisonment of the student, a mixture of men, machinery, and water continued, nevertheless, slowly and as soon as the ground dries the ground is just now nearing completion.

Dormitory Issue Up To Men; Do They Want Self-Gov't?

By JERRY HUMPH

About two weeks ago, the Administration called a meeting of the male students of the College to consider organization of the men's dormitories. Many of the students have minded the point entirely; in last week's issue, the question regarding the dormitories was put before the student body. Few of those who were quoted wondered off and dodged the main point. We find such responses as, "I think boys of college age are too old for dormitories," "I believe a person of college age should take such a job," "I think the idea is degrading," and "dodged the main point. We find such answers as, "I think boys of college age are too old for dormitories," "I believe a person of college age should take such a job," "I think the idea is degrading," and "are."

The fact that so few petitions were presented the plan as an attempt to put the campus up to the boys who would accept such a job. Administration told the students what he thought of such an idea, and that it is based on the idea that it is for the benefit of the students who would accept it. The Administration in that event, would be useless to try to institute it. The plan on the other hand, then the Administra- tion has best for the boys who would accept such a plan. If they don't want self-government, then let's get the original idea and do as it was."

The response of the students at this meet- ing was fairly mixed. Most of the freshmen either favored the idea, or opposed the idea. The freshmen in bringing the major- ity, the assembly with some reluctance, finally gave its consent to the election of representatives to formulate a system. Most of the upperclassmen re- sponded negatively, but some did try to say something on the other hand, and that the Administra- tion is definitely opposed to the plan. The answers are all fine as a sign of the indication of the hostility which the admin- tions have to the plan. They have no value whatsoever in showing any comprimation of the plan. Whatever Self-Gov't in this war which will win the support of all the men, and this is the day is long past when college students would be willing to provide a quainter environment for themselves, and that it is based on the idea that the students can only be served by a government. The Administration in that event, would be useless to try to institute it. The plan on the other hand, then the Administra- tion has best for the boys who would accept such a plan. If they don't want self-government, then let's get the original idea and do as it was."
