Dear [Name],

Your letters of May 20th and 22nd I received today, and just before going to work thought I had better drop you a line, in case I have to work late tonight. I also received letters from [Neg and Al] Keefe. So you see, I have more writing to do.

Don't try to do too much, to help us along. [Name], for you must remember that there are girls around who do not work as hard as you, why not give them a chance. But then the
Red Cross is a grand organization, and have certainly done splendid work. They need backing up, and if you all chip in, I'm sure things will go along nicely. You and Pelene must look quite cute, strolling about together. But then, looks don't count in this war, if you do the job. Tell Pelene that I was asking for her, th and that we all appreciate the work you are doing. But remember, don't overdo it. Love and best wishes to all, from Richard.
