De Vol Made Coronation Ball Queen
Reigns Over Court of Six Beauties

Blow Decorated In White, Green

By CONNIE CONWAY

Seated on her fur-covered throne under the spotlight, blonde and beau­iful, Mary Betty Allard, 19, was the new Queen of the Coronation Ball sponsored by the Sovereign Club at Saturday night in the Blow gym. Crowns were placed from the third fleet have struck again...

COUNCIL ALTERS DANCE PLANS

Future Dances Run On Non-Profit Basis

Diamonds of any character on campus will henceforth be supervised by a joint committee of the three faculty members and three students, accord­ing to the decision reached by the Admini­strative Council at its November meeting. The faculty members will be: Dr. Harold R. Phillips, chairman; Dean George H. Armstrong, and Miss Margarette Wynne-Roberts, who made up the Recreation Committee's sub­committee on the dance program. The Student Assembly will appoint two student members, to be announced later.

The Administrative Council also super­vised the policy of midnight-­thirty­-night dances on a non-profit basis. This means that any profits from food sales and gate receipts will go back into the general dance fund, contrary to the proposal made by some students that all band installations be turned over to the club sponsoring the dance to raise money. The council also met to vote for federal taxation on them.

According to a release from Pres­i­dent Robert L. Landrum, the Administrative Council felt that final plans should be supervised by student subscription. As before, all donations and visiting dance bands will be handled by the Dance Committee at the Board.

Women Cheerleaders Lead Crowd At Game

Permitation has been granted to the four women cheerleaders to lead the crowd at Saturday’s game against Chicago.

These four girls are all friends! Laura Pritchard, Trinket Robinson, Berry Mae Bean, and Linly Baynardard, have been friends since they started this game only. Dr. Landrum and Miss Wynne-Roberts made the de­cision.

At the eleven o’clock hour, the band played a fan­fare before the introduction of the six­teen cheerleaders, who, as always, were cheerfully greeted by the packed bleachers. At the beginning of the game, the cheerleaders were featured by the dance of the student queen. Rush festivities, as it was announced, will be church service the following day. The cheerleaders are the first in the series of the Student Assembly’s student activities.

The Queen was greeted with a scene of gay Parisian sights, and colorfully dressed French atmosphere. Petite French waitresses served “pseudochampagne punch.” The dress was rich in historical details. The women cheerleaders dressed in their school colors of red and blue, and riding freights.

The dance was the first sponsored on campus. Ballots were printed and distributed in the cafeteria on Friday afternoon, followed by the announcement of the election of the Queen. Other picturesquely entitled poems followed: “Smoke and Steel,” “Slabs of iron, dust” before she returned to the dance this month. Either food or money will be collected by the association for the Sixth National War Loan Drive, in conjunction with the Student Assembly’s student activities.

**Dr. A. G. Ryland Reared On Southern Plantation**

**Studied Languages At Richmond, Harvard, Chicago And Sorbonne**

By CONNIE CONWAY

Born and reared on a huge Virginia plantation where all of the negroes employed were the descendants of slaves owned by his grandfather, Dr. Ryland, long a leader, in the Department of English since 1928, teaches French at William and Mary, Dr. Ryland, had wanted to be a professor, and the French language was his twenty-first subject. In Rouen, where, even then, he had to carry all his books in a lantern and furnish fuel, for his library, he had studied under some of the most famous Frenchmen, such as Grandgent, Ford, Babbitt, Wright, Weston, Murphy, Allard, Morize, Wolz, Neilson, Jenkins, George Lyman Kittredge.

Dr. Ryland not only studied French at Richmond, but went into the study of most of the other languages and can read and speak them fluently. At Chicago and Harvard Dr. Ryland studied under some of the most famous romance language scholars in the country, such as Grandgent, Ford, Babitt, Wright, Weston, Murphy, Allard, Morize, Weln, Stetson, Jepson, Dorgan and Melville. He also took the famous "English II" course at Harvard under the great professor George Lyman Kittredge.

Prior to his coming to William and Mary, Dr. Ryland taught at Richmond College. In his own twenty-first year at William and Mary, Dr. Ryland is one of our most beloved men.

**Inquiring Reporter**

By PATTY LOU YOUNG

With the girlie hopping from house to house last week during sorority rush, the boys were left high, dry and datable. To the question, "What do you think of rushing?" they replied:

"Stonny Davis: "I think it's a good thing, but I don't think it's too much clime."

"Appell: "It's a lucky week for the future."

"Pence: "I think that I like the girls all dressed up for a change."

"Clint Mackenzie: "I don't know what it's all about but from inside I think the girls are being pretty busy."

"Doddus: "I'm insatiable of me."

"Hervey Pope: "I think it's tough on me."

"Stemy Magdalie: "I think that it's a good idea but I think the girls are being pretty busy."

---

**Literary Sorority Fixes Entry Date**

"The last possible date that an applicant will be received for Chi Delta Phi may be turned in will be December 1, at noon," announced Mrs. Sam C. Cozumel, Chi Delta Phi president.

In the past the organization has preferred one noun, one essay, and one short story submitted by each candidate. This year, the secret members of Chi Delta Phi have decided that entries may turn in three pieces of work of any kind as long as the number constitutes the standard of the society. Only women are accepted into Chi Delta Phi.

**Twenty-Six Faculty Members Granted Leave Of Absence**

Number Is Decreased To Eighty-Three

President Pamflet gives a report on the faculty for the academic session 1944-45. Twenty-six faculty members are on leave of absence from William and Mary for the current semester. The number of regular faculty members was reduced from thirty-three to eighty-three. Ten regular faculty members was reduced to twenty members through death, Dean Ryland had wanted to be a professor, and the French language was his twenty-first subject. In Rouen, where, even then, he had to carry all his books in a lantern and furnish fuel, for his library, he had studied under some of the most famous Frenchmen, such as Grandgent, Ford, Babbitt, Wright, Weston, Murphy, Allard, Morize, Weln, Stetson, Jepson, Dorgan and Melville. He also took the famous "English II" course at Harvard under the great professor George Lyman Kittredge.

Preceding his B. A. degree from Richmond, Dr. Ryland did graduate work at the University of Chicago and was awarded his Master's and Doctor's degrees at Harvard. Dr. Ryland attended Colgate, a study of the French comedy of manners of the nineteenth century and 18th, way is reflected in many of the conditions of France at that time. The thesis was one indication of Dr. Ryland's interest in French literature, which he enjoys every opportunity. He has also been invited to make talks and appear, during the Willamette Little Thea-tern group.

His graduation from college, Dr. Ryland taught in several Virginia colleges and then went on to further his study of languages. At the Alliance Francaise, in Paris, Dr. Ryland attended a course taught by the famous Frenchman, René Desnoe. Dr. Ryland also studied at the Sorbonne, at the English Institute at the Ecole Normale d'Instruction, and was given the opportunity of mingling with students and their families, an inviolate asset in teaching French.

**REPORTER TOURS WORLD OUTSIDE APPROVED AREA**

**Other Historical Town Sites Include Blue Lantern, Gas Stations, Stores**

By ROBBIE STEELE

What is beyond the approved area? What is the William and Mary Student missing? In the interest of special welfare and practical science, your reporter did much research to inform those in Derry towers what goes on in the outside world.

In Williamsburg if a student has been to the Inn, Lodge, Cheswingle, the Shelter, Renald's Number Two, the railway station and on the Duke of Gloucester Street, he is known as having been everywhere.

Social duties permit college girls so visit the Williamsburg Inn but they usually miss the scenery behind the building. Behind it is a nine hole golf course without green, trees, sand-traps, and caddies. Also there is a good-sized swimming pool which is well known to most college girls.

The sights of unapproved Williamsburg are many, and one can't expect to cover them all, but your reporter has faith that the students will explore for themselves the affairs mentioned right after they graduate.

**Alumni To Honor College War Dead**

Honoring the students and alumni of William and Mary who have lost their lives in World War II, the College Alumni Association will appeal on December 1 to its alumni and friends for gifts to enable the College to support a number of scholarship organizations in order to preserve the memory of and acknowledge the great debt to these men. The Honor Roll of the College after three years of war now totals forty. It includes many boys who are expected to leave. Having exhausted sightseeing there, the curious student might look to the Currituck, where, even then, he had to carry all his books in a lantern and furnish fuel, for his library, he had studied under some of the most famous Frenchmen, such as Grandgent, Ford, Babbitt, Wright, Weston, Murphy, Allard, Morize, Weln, Stetson, Jepson, Dorgan and Melville. THE FLAT HAT

Wednesday, November 22, 1944
Officers Automatically Elected To Who's Who
Quota Filled By Students Outstanding
In Both Leadership And Scholarship

Virginia Danze and Ruth Schmitz, whose names were omitted in the listing in THE FLAT HAT recently, are also included in the coming issue of Who's Who Among Students in American Colleges and Universities. Glennie Danze is the president of the senior class and a senior representative to the Women's Honor Council. Ruth Schmitz is editor of The Reprint.

The quotas allowed William and Mary by Who's Who is twenty times as much as the other universities in the country. The college is particularly proud of this achievement and the college is particularly proud of this achievement.

Cafeteria is Trinkle Hall
With the exception of their own individual dormitories, the cafeteria is the building which the majority of students visit more regularly than any other building on the campus. From the time they are freshmen until their graduation they go there on the average of two to three times a day. Yet, the majority of students finish four years of college without knowing that the official site of the cafeteria is "Trinkle Hall."

 Until 1913 William and Mary had a small dining hall that was expanded to fill the needs of the college. In that year the cafeteria burned down and only the walls were left. President Chandler went to Governor Elbert Lee Trinkle and explained that a new and larger dining hall was needed. The Governor set aside $250,000 dollars for the new building, which was erected around the foundation of the old one. When it was finished it was named Trinkle Hall in his honor.

Governor Trinkle was born in Wytheville, Virginia, in 1865 and graduated from Hampden-Sydney College in 1886. After graduating from the University of Virginia in 1891, he started to practice law in Wytheville. Later Governor Trinkle made his home in Roanoke, Virginia, where he was the president of the Roanoke Savings Bank. From 1911 to 1920 he was a member of the Virginia Senate and in 1922 he was elected governor and served until November 22, at the Homecoming game.

College Appoints Sanitation Expert
Miss Grace Blank, Assistant Professor of Bacteriology, has been appointed by Dr. Pfeiffer as Sanitation Officer of the College. In addition to her regular duties, Miss Blank has earned a reputation throughout the Commonwealth as an expert in the field of sanitation and public health. For many years she has been helping the College solve its problems on a purely voluntary basis.

As Sanitation Officer of the College she will have wide powers in her efforts to bring about a higher level of sanitation throughout the College plant and in all the various agencies associated with the College. In this work she will be assisted by Dr. Bell, College physician, by Miss Trinkle, head nurse, and others. She will also receive the full cooperation of the Waverley Club,cloud medical officer of the Navy Chaplains School.

From time to time Miss Blank will have occasion to ask the cooperation and assistance of the student body. Problems of health and sanitation in a large residential college are of tremendous importance. It is the responsibility of the student body to maintain a community which is transmuted in character and where employee personnel turnover is reasonable.

Commander Gives Graduation Speech
Lt. Commander H. A. Calahan was the guest speaker at the Dairy Chaplains graduation exercises held last Sunday at 7:00 p.m. in Phi Beta Kappa Hall. Lt. Commander Calahan, now on duty at the supply depot at Chesterton, Indiana, is the author of "What Makes a War End!," a newly published book that has been reviewed by the public favorably. The book is the result of the lives of the World War II chaplains and officers who have served in the same services.

The lecture was given in the Colonial City. The audience consisted of members of the Dairy Chaplains and members of the community. The lecture was well received by the audience.

Commander Calahan's talk there was part of a series of lectures on the subject of "International Student Life." These lectures are part of a series of lectures on the subject of "International Student Life." These lectures are part of a series of lectures on the subject of "International Student Life." These lectures are part of a series of lectures on the subject of "International Student Life."

To the many students who eat in the special cafeteria, head-waiter Thomas Dingle, President of the Men's Honor Council, is a familiar figure. The tall, retiring blonde is a member of Phi Beta Kappa, national social fraternity, and is also active in the Sovereign Club.

WSSF Gives To Colleges

"International Students' Day, November 17, brought to mind the realization that the United States is a great multicultural center, and that our colleges and universities are a part of this great diversity. In Europe and Asia in these war years, it is a matter of great concern that our colleges and universities are open to students from all over the world. In the United States, our colleges and universities are a great multicultural center.

In Belgium, the University of Brussels has been closed since 1941 because of the resistance of students and professors. In Europe and Asia in these war years, it is a matter of great concern that our colleges and universities are open to students from all over the world. In the United States, our colleges and universities are a great multicultural center.

In France, the University of Paris has been closed since 1940 because of the resistance of students and professors. In Europe and Asia in these war years, it is a matter of great concern that our colleges and universities are open to students from all over the world. In the United States, our colleges and universities are a great multicultural center.

Staffs Of Southern Schools Offered Help For Research

Aid In Finishing, Rather Than Initiating Project; Not Open For Degree, Scholar Must Have Ph.D.

Grants-in-aid of research to Southern social scientists in economics, social, economic and political history; political science; social psychology, linguistics; and anthropology for the support of related disciplines, are being offered by the Social Science Research Council.

The grants are available to mature scholars, without reference to age, who possess the Ph.D. or whose capacity for productive research has been effectively demonstrated by published work. They are offered for the purpose of assisting members of the staff of colleges and universities in Louisiana, Mississippi, North Carolina, Arkansas, Florida, Georgia, Kentucky, Oklahoma, Tennessee, Texas, and Virginia. They are designed to aid in completing rather than in initiating projects. They are not open to candidates for a degree. Applicants may not apply simultaneously for aid from other agencies.

The purpose for which the grants may be expended is the expenditure of the grant for living expenses while in the field; travel involved in the investigation of the problem; clerical assistance; assistance for students, children, or invaliding; apparatus and materials; travel to attend scientific meetings; books, manuscripts, etc.; and other essential expenses.

They may not be given to institutions for the purpose of publication of manuscripts.

Proposals will be given to applicants who can assure the Council that the funds will be expended in accordance with the regulations established by the Council.

For the purpose of these grants individual scholars are expected to make cooperative arrangements with the organizations and agencies named. Such grants are not to be used:

1. for the payment of living expenses while in the field.
2. for the payment of travel expenses.
3. for the payment of amounts to be used for the support of institution.
4. for the purchase of apparatus and materials.
5. for the purchase of books, manuscripts, etc., unless the materials are to be used for the sake of the libraries or laboratories.

The following guidelines may be noted:

1. The grants may be made to individuals, without restriction to members of the Social Science Research Council, for the purpose of giving support to worthy and competent investigators.
2. The Council will consider recommendations for grants in aid of research to social scientists in economics, social, economic and political history; political science; social psychology, linguistics; and anthropology, for the purpose of assisting members of the staff of colleges and universities in the states of Louisiana, Mississippi, North Carolina, Arkansas, Florida, Georgia, Kentucky, Oklahoma, Tennessee, Texas, and Virginia.

Alumni To Honor College War Dead

(Continued from Page 3)

This annual fund raising will be held on November 17. There will be personal solicitation, no literature, no tea. Nevertheless, the College hopes through this gift giving to raise by charter day, February 8, the total sum of $60,000, the amount necessary if every man on the Honor Roll is to be personally memorialized through the presentation and opening of the hall in the fall term in 1945.

The gifts will be made to the memory of the Alums., College of William and Mary.

The forthcoming catalogue will carry an announcement of the War Dead, and the students individually the scholarship, together with information concerning every man on the Honor Roll. Gold medals will be given to young men by the Faculty Committee on Student Awards. They will be retrievable if the recipient is able to maintain a "C" or better in the college.

Priority in awards will be given to returning veterans whose education at the College was interrupted by the War. Many former students will be eligible for financial assistance under the G. I. Bill, but there will be considerable portion of service men who will be eligible.

This is the first general annual gift giving ever sponsored by the College of William and Mary. Many colleges and Universities have employed a similar method of raising funds and their efforts have been successful.

Dr. Swem Addresses Freshmen In Library

E. O. Swem, Librarian, delivered Monday evening a lecture to the freshmen of the English classes. The lecture, entitled "The Library," prepared for use in the Orientation program is used as a basis for the lectures. Use of diagrams, symbols, indices, encyclopedias, periodicals and library catalogues was explained and helped to present in a concrete, interesting way the value of the college library to the student.

At the close of the lecture, Dr. Swem explained to the freshmen and emphasized the importance of the rare manuscript collection associated with the history of the library. Following the lecture, the group took a trip through the library.

The beginning of the second semester in cooperation with the English Department, the library plans to sponsor, with the cooperation of professional library assistants, will be arranged for interested freshmen. They may wish to copy material for term papers and the correct way to write a bibliography and footnotes.

W-M Serves 8500 Students

William and Mary, together with its branches in Norfolk and Richmond, was attended by approximately 8,990 individuals during the academic session 1941-42. William served approximately 8,890 students, 750 high school students, 700 A. S. T. C. students, and 1,200 Mary students and residents. Norfolk was attended by approximately 400 regular students, 100 evening and summer students, and 500 vocational education and Engineering Science and Management War Training students. 200 special students, and 150 extension and summer students.

If these totals were reduced to full-time equivalent the number would shrink appreciably, but the fact remains that the College rendered services to the community.

Deans Attend Hood Meeting

Dr. Gracie Lawrence and Mrs. Margarette Weymouth attended on Saturday, November 11, to Saturday, November 18. Deans from colleges, universities, and high schools in Maryland, District of Columbia, Delaware, and Virginia were present.

A feature of the conference was a lunch at which time the deans gave work reports from their colleges, and participated in discussion. The principal speaker was Dr. McLean of Smith College, who talked on the teaching influence toward Negroes and Jews.

Saturday night, Dr. Lawrence spoke to the American Association of University Woman's at a meeting in Fredericksburg on the subject of Colored William and Mary.

Inspection Reveals Causes Of Illness

Miss Grace Black, working in connection with the Public Health Officials initiated a Public Survey of the College cafeteria. The purpose of this action was to learn whether or not the cafeteria has been the cause of the numerous illnesses caused on campus.

The survey consisted of an inspection of the food which goes into the preparation of food in the cafeteria.

Miss Black has issued a statement in regard to the results of the survey which will be micrographed and distributed among the students in the cafeteria.

The report proved that the food situation was not the cause, but probably an influence condition which may or may not be transmitted by the food.

Deans Attend Hood Meeting

Dr. A. G. Ryland Reared On Virginia Plantation

Dr. M. V. F. Flower, principal of Macon High School, attended the meeting of Deans of Women at Hood College, Frederick, Maryland, from Thursday, November 16, to Saturday, November 18. Deans from colleges, universities, and high schools in Maryland, District of Columbia, Delaware, and Virginia were present.

A feature of the conference was a lunch at which time the deans gave work reports from their colleges, and participated in discussion. The principal speaker was Dr. McLean of Smith College, who talked on the teaching influence toward Negroes and Jews.

Saturday night, Dr. Lawrence spoke to the American Association of University Woman's at a meeting in Fredericksburg on the subject of Colored William and Mary.

Library Exhibits Contains Books Of World

Selections By Adler Are Basis Of Display

At the request of the Faculty Committee on Curriculum at Colored William and Mary, a display has been set up in the exhibit of great books which represent all of the titles listed by Adler in How to Read a Book. According to Adler, "my lone belief that almost all of the books in every field are within the grasp of all normally intelligent men, on the conditions of age, of course, that they acquire the skill necessary for reading and make the effort." Adler's selection in the same group which is used by St. John's College for its reading program.

The exhibit is designed to help many students on campus who do not know that the library owns these books, to choose good reading material for use in their leisure time. Most of the editions are excellent and include those of the Globe classics and some of the best translations of the Latin classics. The books range from editions by Homer to those of James Joyce. Among them are Xant's Copies of Pale Face: Indians: Magic Mountains; Dumas' Orliet of the Species; Rousseau's Emile; Voltaire's Candide; Leibnitz's Monadology; Eucken's Augustus; Mark Twain's Innocents Abroad; and others quite diverse.

WILLIAMSBURG INN & LODGE

A Division of Colonial William and Mary

William and Mary and other students who visited their respective houses during the week of rushing were the following: Mrs. Lois Spratley, Jacky Firestone, Francie Potts Adams, and Frances Wargone Reid; Chi Omega, Betty Bustin, Gayle Fasten, Janet O'Connell, and Mary Williams Carter; Kappa Delta, Ann Pettigrew, and Sarah Ferris; Delta Delta Delta, Alpha Chi, Eleanor Blythe Hunman; Tril Dick, Nancy Kerr, Sunny Tribbey, and Alexandra; Chi Omega, Carolyn Mary Zane, Gamma Phi, Helen Black, Audrey wounded Baur, and Shirley Massey; Phi Mu, Lois Weiss, and Russ Powers.
Students Thrash Clemson, Clemson Follow Blue Devils

Southern Conference competition, always keen, has been especially torrid this year. For the first time in many seasons, the struggle for the title are Duke, Wake Forest, William and Mary, and the Tarheels. Each team has been determined, though, cannot be determined until each has played its last game.

The Blue Devils are on top of the heap at the present time, having always defeated all except the Tarheels, whom they have defeated twice. Their victims include Richmond, Wake Forest, and South Carolina. Their remaining games, which will take place on Saturday, is the traditional battle with their arch rivals, the Tarheels of North Carolina University. This is one of those infrequent games that are no longer for values. Anything can happen.

Peabody Walker's Deacons, having five victories and four defeats, will play more games than their rivals. They have won over North Carolina, Maryland, and Wake Forest. However, they have left the north Carolina State and Clemson. Their lone setback was handed by Duke. Thus the Deacons have won or lost on Saturday.

The opposition will be a squads lost to William and Mary of South Carolina University.

The Clemson Tigers, now in third place, hope to capitalise on their arch rival, Duke. They have left Wake Forest, but can only capitalise on their own. Duke and Wake Forest have now entered the second tier of the South Atlantic, being defeated. Frank Howard's squad will play their final contest on Saturday. The opposition will be a squads lost to William and Mary of South Carolina University.

Students Pack Service Boxes

Two building Christmas boxes have been pledged for camps and hospitals by the Red Cross. These boxes, which are to cost no more than $2.00 or less than $1.50, are to be prepared by the students. Some suggested articles are: stationary, shaving cream, tooth paste, brush, address book, alright and special delivery stamps, paper pads, pencils, comic book, pocket book, etc., but no cigarettes or any thing sharp such as razor blades are to be included. Some of these articles will be on sale in the Apollo Room in Phi Beta Kappa Hall from 4:30 to 6:00 and 7:00 to 9:00 p.m. from December 1 to 12. Each of these articles should be wrapped individually in Christmas wrappings before being put into the boxes, as these are to be wrapped in Christmas paper also.

The Red Cross asked every student to wrap the boxes again in brown wrapping paper to protect the Christmas wrappings. Several paper students are asked to list contents and name of the chapter.

The first issue to be judged was the first issue of the Tri Delta house magazine. We are sure that this issue is only the beginning of many issues of similar quality.

Michigan State College Experimenting With DDT

Daneus under the system suggested by the students, of having each hop sponsored, those who wish to experiment have been approved by the new faculty. The result of this system is that those students who wish to experiment will have their own way to do so. The insecticide promises to find its place in agriculture as well as in industry. The insecticide promises to find its place in agriculture as well as in industry. The insecticide promises to find its place in agriculture as well as in industry.

The experiment will be the plants in which DDT can be used. It is effective against flies such as the apple maggot, and against flies such as the apple maggot, and against flies such as the apple maggot.

The New Interclub Council

...Solves the Problem

Last spring the Student Assembly organized a group of six students into an Interclub Council, a point system which would be beneficial to the various clubs on the campus. Their motive was a good one, to make Interclub Council meetings as efficient as possible. (2) to eliminate too many meetings scheduled for the same time on the college calendar. (3) to establish a financial account of each club's expenditures.

Since that time, these three aims of the committee have come a long way. A plan has been formulated to carry out these measures as well as a strong body, known as the Interclub Council, to enforce them. Last week the Committee of Five for the Interclub Council passed the provisions of Point system. Now all that awaits their going into effect is the approval of President Powell.

How will the plan work? This question has been more frequent than efficient for the betterment of their members? A person cannot become a member of a club unless he maintains a C average in the particular field of the club. His members further have been required to attend three meetings and keep account of their club's expenditures. This will make it possible for students to know dollar for dollar how the money is spent.

What are the provisions of the point system as to formation and power of enforcement? It provides for the Interclub Council which can recommend new club members, suggest the removal of old members, and the provisions and enforcement of the point system will go into operation soon after. It may be necessary to make changes in the college as the system develops.

Exactly what clubs does it affect and to what extent? All language and science clubs, as well as the Philosophy, Psychology, and Scrabble Club of the Interclub Council, have been affected in this way. The senatorial elections are not affected by the point system average. It is not concerned with honorary organizations.

How soon will the point system become effective? If approved, a membership roster will be compiled for each club, and the points system will be in effect. The Interclub Council meetings will be held at regular intervals, and the minutes of each club's meetings will be kept. The Interclub Council shall keep account of the club's income and what their' money is spent for. This will be done as efficiently as possible. (2) to eliminate too many meetings scheduled for the same time on the college calendar. (3) to establish a financial account of each club's expenditures.

How will a club meet the financial standards? The Interclub Council shall keep account of the club's income and what their money is spent for. This will be done as efficiently as possible. (2) to eliminate too many meetings scheduled for the same time on the college calendar. (3) to establish a financial account of each club's expenditures.

One of the minor inconveniences of the war is the deplorable shortage of good food. Women in Williamsport are in the throes of this irritating condition. Even our Congressmen in Washington are feeling the effects, and the Interclub Council has been appointed to study the situation.

Conditions in local stores are approaching black market proportions. No longer do the merchants display their favorite brands, and when these are in stock, they hide them under the counter or tuck them away. The Interclub Council wants a pick of giggles, we approach the situation nonchalantly with the idea that they are all right. We have found it a fascinating task.
