**Athletic Fee Questioned In Assembly**

**Committee Seeks Student Opinion**

Throwing a spanner into an otherwise glad-fisted student assembly meeting Thursday, Jack Carter formed a division in the prevailing opinion that all athletic fees be doubled from the present level.

He claimed that this plan will not interfere with those plans that are already in the works of the present athletic fee.

But the other side, represented by Howard Heffner, Albert Stuart, and several others, had the same idea and said that they would not agree to a doubled fee.

*All in Favor of Doubling Athletic Fees* by Lucy Bubans

**Naval Chaplains School Conference**

The Naval Chaplains' School, which is now stationed in the College, said its present president, Mr. John A. Pomfret, will continue to be the head of the school.

Mr. Pomfret announced several new projects that the school hopes to undertake in the near future, and that he hopes to see the school grow in size.

The committee on elections met last night and named Mr. John A. Pomfret, Mr. Jack Carter, and Mr. Albert Stuart as the three candidates for the position of President of the College.

**Brothers Instruct Misery In Touching Ceremony**

WILLIAMSBURG, VIRGINIA, February 14, 1943

The College of William and Mary held a touching ceremony today to honor the memory of those students who have passed away.

The ceremony was attended by students, faculty, and alumni, and was led by President John A. Pomfret.

Religious Leaders Discuss Religion as a Vital Force in the World

The Reverend Frank Walsh of Williamsburg, Va., described religion as a vital force in the world and as a crossroads at which the individual is forced to make a choice between good and evil, to do right or wrong, to love his neighbor as himself or not. Mr. Walsh spoke of the need for understanding and respect for the beliefs of others, and the importance of working towards a world where peace and harmony prevail.

The theme of the discussion was "One Religion or Many?" and was attended by a large audience at the Williamsburg Catholic Church. The discussion was moderated by Dr. Havermale, the Williamsburg Baptist minister, who led the discussion andSteam Group on Wednesday afternoon. The Reverend Frank Walsh of Williamsburg, Va., spoke on the topic of "Religion in the Modern World." He discussed the role of religion in contemporary society and the challenges facing religious leaders today. He emphasized the importance of understanding and respecting diverse religious beliefs, and the need for dialogue and cooperation among religious communities. The Reverend Walsh concluded his talk by stressing the need for a continued commitment to the ideals of peace and understanding in our rapidly changing world.

Independent of Religion

The Reverend Frank Walsh of Williamsburg, Va., addressed the issue of independence from religious belief. He argued that while religion can provide guidance and meaning to many people, it is not necessary for a fulfilling life. He encouraged individuals to explore their own beliefs and values, and to find meaning and purpose in ways that are meaningful to them.

The discussion was well-received by the audience, who engaged in lively and thoughtful conversation. The Reverend Walsh, who has been a prominent figure in the Williamsburg religious community for many years, was praised for his insight and wisdom.

Innovate, Spiders, Tigers on Court
Tribe Faces Naval Air Station, Va. Tech This Week

Big Green Out To Avenge Early Defeat By Gobblers

Naval Air Station
Be Met Wednesday

While the Big Green Men have lost two of their last three games, the team that faces them Saturday night at the Naval Air Station, Norfolk, is fairly well prepared for the next match. With a 12-4-0 record, the team is in second place in the Big Six race.

The game with the Air Station has been described as the most crucial game in the Big Six, as the Flyers are far ahead of the material found in any Conference lineup.

Many Tribe Stars Race Induction In E. B. Roths

With the Selective Service Act going into effect, many colleges are finding it necessary to prepare for the inevitable loss of their best players. The Tribe is no exception, as many of its leading players are expected to be drafted in the near future.

The team's three greatest stars will be greatly missed but even more overpowering is the possibility of some others. It is safe to say that the three greatest stars will be drafted, as will many others, but not included in the Tribe.

Several other capable reserves have been added to the roster of the novices and have provided the team with invaluable strength.

The next game saw the Kappa Phi Kappas take on the winter weather, as the Tribe was called to avenge their loss to the Tribe last week. With Bill Barker Horn leading the attemps, the tribe won by downing a fighting Phi Kappa Griffin 22-21, with Jester leading the attemps with 22 and Vordorothy with 10 victorious teammates.

In the International University Basketball race, the Phi Kappa Alumni and the Kappa Phi Kappas are neck and neck, having one each at the finish of the season. The Tribe has the lead and the Phi Kappas have the momentum. The Phi Kappas have a better record in the Big Six.

Kappa Phi Phi Tau Wins

The Sigma Alpha Epsilon team opened the year Monday by defeating the Tribe 19-14, with Hollis being high scorer. The Tribe's season is over as they lose their last game of the season.

Well, it looks like the William and Mary basketball bees have been at last begun to acquire a few pieces which have figured to have an important role in the Big Six, and the team has acquired a few pieces which have figured to have an important role in the Big Six.

William and Mary's rapid rising stars, having acquired the all-time Big Six basketball team continued their winning ways last week as they beat Hampton 84-81 and Hampden-Sydney 48-88. For the visiting Gobblers as the Tribe began to fall to the state race by a team which has been far too strong for the Tribe, the Tribe proved to be an entirely different story as the Tribe began to turn around.

The Tribe has been called to avenge their loss to the Tribe last week. With Bill Barker Horn leading the attempts, the Tribe won by downing a fighting Phi Kappa Griffin 22-21, with Jester leading the attempts with 22 and Vordorothy with 10 victorious teammates.

Women Students Replace Nurses In The Infirmary

By JEANNE EEAUSE

Cooperative News

*This is the first in a series of articles on the subject which will be reviewed periodically." -The World War I uniform picture is of the writer.

For almost a year, growing de- mands for increased services by nurses and other personnel in hospitals and medical centers throughout the nation have been felt. The demand has increased during the past year, as the war effort has accelerated, and the shortage of trained personnel has become more critical.

The College Infirmary, although already providing service to students, found that this was not sufficient to meet the needs of the student body. Therefore, a decision was made to begin a program of replacing nurses with female students.

The first group of students to be trained for this purpose was the Freshmen class of 1942. These students were selected on the basis of their academic record and their interest in the field of nursing. They began their training in January and were expected to complete it by the end of the semester.

The training program consisted of a combination of classroom instruction and hands-on experience. The students were taught basic nursing skills, such as giving injections, changing dressings, and administering medications. They also learned about the different types of equipment used in the infirmary and how to use it safely.

In addition to their academic work, the students were assigned to work in the infirmary under the supervision of the head nurse. They learned how to take care of patients, how to communicate effectively with doctors and other medical personnel, and how to deal with emergencies.

The program proved to be a success, and the students were well received by the patients. They were able to provide competent care and were able to contribute to the overall well-being of the infirmary.

The College continued to expand its program of training female students to enter the field of nursing. As of this writing, the Freshmen class of 1943 is in training, and a new class of Sophomores has been selected.

The College is proud to be able to offer this program to its students, and it is confident that it will continue to provide quality care for its patients. The College is grateful to the nurses who have been so generous with their time and to the students who have been so willing to learn.

Popular Speaking

By MARThA HII. NEWELL

Everything is going around say-

ing "As Time Goes By") now, I

guess to show how the music is

singing with great success in

old times. If we hadn't heard it in

the music "Gondoliers" might

be in Vogue. Anyway, Mrs.

Shelbert told us that the record

had not received any notice at

all.

And by the way, please turn to

your old records. In the shop. With

old ones, they aren't worth

now. So if there are any of

the people at your party, mention

111)

that you had them.

This week I recommended a

hymn which lasted just one

minute, made by Nutfield. The

former was sung by the Mrs. Carle

Carlisle. The first one I listened to in the

new album is called "Flamingo" and it

was sung by Mr. Kaye. This

record contains with honors

thePerry Brothers. Mr. Kaye gave us a

hymn by Frank Loesser, who also

was on the album. The other

one was done by Carle and

the Sibley brothers, the Carle

Brothers. The song was called

"Vagabond Lament." Chuck

Kaye. The next one in the album

is called "Mambo Boogie" and it

was sung by Miss Sibley. The

third one is "Here's the Hot Stuff" which

was sung by Mr. Kaye. The

fourth one was "As Time Goes By" and

the fifth one was "Forever"

which was sung by Mr. Kaye.

The record is complete with barn-
type like "Der Fuhrer's Face".

The little pamphlet that goes

with the album, told us that the age,

of nine, Frankie Carle was playing

the piano in a dance band three

weeks. From then on his

career is one succession of steps

toward fame. He is now the feat-

ture gilt. This album titled "Encore" and contains some

of his hit tunes, "A Love

Song to Sammy Kaye; the other, Frankie

Carle. Sammy Kaye album is called

"Farming" and it's the unusual

tune. If we hadn't heard it in

106 months ago in the stores. The

new album sold was "Hit Parade" tunes is that

you hardly have time to hear

them before you have to turn it

on. Background accompanies the piano.

"Hindustan" is so fast and solid

that you hardly have to hear

the record because you're trying to

understand how Frankie can period

three hours in melody.

On the reverse side of "Hindus-
tan," Frankie sings in the nick of
two of his hit tunes, "A Lan-

tern's Shadow" and "Sunrise Ser-

dee." This Bachman's "Prelude in C Minor" is simplicity

research. This one might not please

us, please turn this one away.

What Becomes The Monarch?

The history of the doctrine of sovereignty has been a long and varied one. It began with the struggle for freedom, and later, during the Napoleonic Wars, the idea of national sovereignty took shape. But the principles of sovereignty have been challenged by the new world order, and the concept of the king as a constitutional monarch has been questioned.

The monarch, as the symbol of national unity, has been a source of inspiration for many. But with the rise of democracy, the role of the monarch has been redefined. The monarchs of today are more likely to be seen as symbols of national identity, rather than as absolute rulers.

The monarch's power is limited by constitutional law, and their role is often ceremonial. The monarchs of today are more likely to be seen as symbols of national identity, rather than as absolute rulers. They are often used as a symbol of unity and continuity, and their role is often ceremonial. The monarchs of today are more likely to be seen as symbols of national identity, rather than as absolute rulers.

Franco's Blackmail

By ALEXANDER ROSSWELL

Young Franco—what can be more of a riddle? To those of us who have followed the history of Spain, his actions have been a source of fascination and wonder. The man who steered the country into the modern age, the man who instituted a dictator's rule, the man who has lived to fill each immediate need—what is the secret of his success?

Franco has been a master of the art of blackmail. He has used his power and influence to manipulate and control the Spanish people. He has been able to maintain his grip on power by threat and terror, by the promise of punishment for those who oppose him.

Franco's tactics are based on the principle of fear. He knows that the constant flow of Axis supplies to Spain is contingent on his cooperation. He has used this knowledge to his advantage, and has been able to secure the allegiance of many of his opponents.

The tendency is still to regard the Axis countries as the only real threat to the peace of Europe. But, as the young Franco has demonstrated, the Axis powers are not the only ones who can cause trouble. The young Franco has shown that he is capable of using his power to manipulate and control the Spanish people. He has been able to maintain his grip on power by threat and terror, by the promise of punishment for those who oppose him.

Franco has been a master of the art of blackmail. He has used his power and influence to manipulate and control the Spanish people. He has been able to maintain his grip on power by threat and terror, by the promise of punishment for those who oppose him.
