A New Element

In Student Government

In reference to the postponement of the vote on the proposed Student Government Constitution, it is only necessary for the Flat Flatt to make some presentation on the subject, for it is difficult for us to understand the whole issue in the absence of the Student News story; also it is difficult for the Flat Flatt to draw conclusions or take a definite stand on this question at this time because of the chaotic state of the matter and the introduction of entirely new element into the student government picture.

For the past two months a number of ambitious students have been working on a student government plan. Completed two weeks ago, this plan was presented in a student gathering in Pit. Bata Rapide Hall on Dec. 13. Present at the meeting was a standing committee consisting of students and administration. The plan of action was outlined and the meeting was adjourned.

During this past week, a group of students met in Pit. Bata Rapide Hall to discuss the plan. The meeting was attended by a large number of students. The group of students then met with the administration and arrangements were made for further discussion.

The purpose of the meeting was to set up the structure for a workable, effective organization. The plan was an organizing agent for certain functions which the various groups in the student body think they are finished, but which the administration would like to see continued.

The plan was presented to the Student Body for consideration, but it was decided that further action would be taken in the near future. The meeting was adjourned.

The battle still rages on in the war which claims the lives of many daily. With or not to be; how many of us see a point in being or not being a part of the military. We are constantly exposed to a few currents highlighting the war from all sides of the war, but what is right or wrong is the only thing that counts.
